

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Mr. Irvine introduced Senate Joint Memorial No. 1, as follows:

SENATE JOINT MEMORIAL NO. 1.

To the Honorable Senate of the United States:

Your memorialists, the Legislative Assembly of the State of Oregon, respectfully represent that the continued immigration, or rather importation of Coolie slaves of Chinese laborers to this State, is a violation of treaty stipulations, which provide that such immigration shall be voluntary, and is a very serious injury to the laboring classes, not only of our State, but of the entire Pacific Coast, by the reduction of wages to starvation prices; that such importation of said Chinese and other Asiatic slave labor tends to drive white and all other free labor out of our country, and ultimately compel all who subsist by manual labor to the alternative of choosing between starvation and crime; that at least seventy-five per cent. of all the earnings of said Chinese or Coolie slave labor, instead of being in our midst, and thus contributing to our prosperity, is sent to China, *never to return*, thus withdrawing the coin from our country and rapidly decreasing our circulating medium, to the great injury of the best interest of this State, and of the entire Pacific Coast; that such Chinese laborers do not contribute to the wealth and prosperity of the country by the acquisition of property and the payment of taxes, but by pauperism and crime are a continual source of expense to the country and municipalities of this State; that the treaty now existing between the United States and China has never been maintained on the part of China, in accordance with its intent and meaning; the right of free migration and immigration, which it recognizes, was to be entirely voluntary and to be exercised in view of expatriation. The Chinese have no right to be admitted under the circumstances in which they come here; they are usually brought in a condition of semi-slavery, and obligated to perform a term of servitude.

The privilege accorded to contracting parties was upon condition that the immigration to either country, by the citizens or subjects of the other, should be a voluntary individual act; China has wholly failed to have that consideration observed, and the United States

ought to revoke the privilege; therefore, we, your said memorialists, pray your Honorable Body to modify the treaty between the United States and the Empire of China so as to stop and prohibit the importation or immigration of Chinese and other Asiatic laborers to this Coast altogether, and to adopt such lawful means as are necessary to rid the country of those already here.

On motion of Mr. Simon, S. J. M. No. 1 was ordered printed.

Mr. Irvine introduced Senate Joint Memorial No. 2, as follows:

SENATE JOINT MEMORIAL NO. 2.

Resolved by the Senate, the House concurring:

That the following memorial be directed to the Senators and Representatives from the State of Oregon in Congress assembled, and that they be instructed to urge upon Congress an early action thereon:

To the Honorable Congress of the United States of America:

Your memorialist, the Legislative Assembly of the State of Oregon, respectfully represent:

That within the grants of lands made by Congress to the various railroad and wagon road companies, to aid in the construction of their roads, there are vast areas of excellent agricultural land lying within the various States and Territories through which said roads were intended to pass, which, by reason of said grants, have been for years and now are withheld from settlement to the great detriment of the public interest of the whole country, and especially the State and Territories in which said lands are situated.

That said companies have, in a great many instances, failed to construct their roads through many portions of said lands in accordance with the conditions upon which said grants were made to them. That, in the judgment of your memorialists, because of the non-compliance of said companies with the conditions of their respective grants, they have justly incurred a forfeiture of such portions of their respective grants through which such roads still remain unconstructed.

Therefore, your memorialists, on the part of the people of Oregon, urge upon your Honorable Body, as a matter which the people of this State and all the States and Territories may justly demand as right, to adopt some speedy legislation declaring such lands as have not been earned by said companies in accordance with the conditions imposed by Congress, withdrawn from such grants, and that the same be speedily thrown open for settlement by the people.

On motion, of Mr. Simon, S. J. M. No. 2 was ordered printed.

WHEREAS, Under the said Act D. P. McDaniel, of Union County, Colvin Campbell, of Baker County, and Daniel Chaplin, of Union County, were appointed and constituted a Commission to construct said road and expend said money; and,

WHEREAS, Said Act of the Legislative Assembly provided, and made it the duty of said Commissioners to report to the Secretary of State on or before the first day of September, A. D., 1886, giving an account of their acts in the premises, and giving an itemized account of all the money expended by them; and,

WHEREAS, The said Board has failed or neglected to file said report as required by law; therefore, be it

SENATE JOINT MEMORIAL NO. 3.

To the Honorable the Senators and Representatives of the United States in Congress Assembled:

We, your memorialists, the Legislative Assembly of the State of Oregon, respectfully represent:

That the land grant to the Northern Pacific Railroad, coterminus

with and adjacent to the Cascade Branch of the Northern Pacific Railroad, extends over and covers a large area of valuable and fertile lands in the northeastern portion of the State of Oregon;

That the land grant coterminus with and adjacent to the proposed Columbia River Branch of said Northern Pacific Railroad, extending from Wallula, in Washington Territory, to Portland, Oregon, extends over and occupies an immense tract of valuable lands in the northern portion of the State;

That in many cases so-called "railroad land," that is, land claimed by the Northern Pacific Railroad Company, and held from claim or settlement under the Acts of Congress, extend fifty or sixty miles, or more, from the line where said road, or either branch thereof, has been located;

That the said Northern Pacific Railroad Company has never built a road, or branch thereof, between Wallula and Portland, or any part thereof; that said route is occupied and used by a railroad built without a grant of land; and that there is no prospect nor necessity of the building of said road between Wallula and Portland by the said Northern Pacific Railroad Company;

That under the Act of Congress by which said lands were granted to said Company they were long since forfeitable, and as a matter of simple justice to the people, should have been long since forfeited;

That poor settlers, who in poverty and in a strange land seek to obtain title under the laws to one hundred and sixty acres, or, at most, three hundred and twenty acres of Government land, are held to a strict observance of the law, and required to perform fully all its conditions, upon penalty of losing both their claims and their rights; but this railroad corporation, having been given an immense domain of the people's heritage, has been permitted to retain its hold upon large portions thereof for years, without a shadow of right or title, in violation of their charter and of the terms of the grant, and to the great detriment, annoyance and injury of settlers and private citizens;

That in consequence of this illegal and unjust claim, or pretended claim, of said company to said lands, or a large portion thereof, settlers already upon tracts thereof are in a state of great doubt and uneasiness as to the final disposition of said lands, and are thereby hindered and prevented from making improvements and building such homes or living in such peace and security as they might and would do if this question were set at rest; they are constantly annoyed by conflicting reports, and harrassed and plundered by unscrupulous attorneys and real estate agents; beside, settlement and development of the country is greatly retarded, and large quantities of land that ought before this to have been in cultivation and occu-

pied by prosperous farmers is lying unoccupied or held in large tracts in consequence of contracts or agreements with said company, and is not subject to taxation; that in many cases partial payments for tracts of said lands have been made to said company by persons who are continually annoyed by the doubt whether such payments are necessary or valid; that, in short, the condition of people occupying and adjacent to these lands is one of incessant vexation and distress.

Wherefore we, your aforesaid memorialists, most respectfully and earnestly ask :

First. That all unearned lands heretofore granted to railroad corporations, and especially to the Northern Pacific Railroad Company, be declared forfeited.

Second. That especially the lands of said Company coterminous with and adjacent to the proposed Columbia River Branch of said road, namely, between Wallula, W. T., and Portland, Oregon, be declared forfeited without delay.

Third. That the forfeiture of said last mentioned portion of said grant be not made conditional upon the forfeiture of other portions between Bismarck, Dak., and Wallula, W. T., but that in case Congress cannot agree upon the forfeiture of all unearned lands west of Bismarck, they shall nevertheless declare forfeited said lands coterminous with and adjacent to said proposed line between Wallula, W. T., and Portland, Oregon.

Fourth. That in case speedy forfeiture of said lands is not possible, such legislation will be had as will require the location and public announcement to settlers of a definite boundary line of said grant, so that lands beyond legal and proper bounds can no longer be kept from entry and sale in consequence of the present undefined claims of said Company.

S. J. M. No. 3 was ordered printed.

Mr. Miller introduced

SENATE CONCURRENT RESOLUTION NO. 4.

Resolved by the House, the Senate concurring :

SENATE JOINT MEMORIAL NO. 4.

To the Senate and House of Representatives of the United States:

Your memorialists, the Legislative Assembly of the State of Oregon, most respectfully represent—

WHEREAS, The Willamette River in Western Oregon is a large navigable stream and is of great importance to the city of Corvallis, situated upon its banks, and which derives great benefit from the commerce of the river; and,

WHEREAS, For a long time certain changes have been going on in the navigable channel of said river above the city of Corvallis; and,

WHEREAS, Said changes have reached such a stage that, if not arrested, great damage will result—first, by the navigable channel being changed about one mile east of the present one, leaving the city of Corvallis that distance from the commerce of the river, destroying its present shipping facilities; second, by the destruction of navigation altogether for a time on account of the river dividing and flowing through numerous small channels, none of them large enough to float the large steamers which now ply these waters; third, by the destruction of several square miles of fertile farming lands, through which the new and small channels will pass; fourth, by the destruction of a portion of the main wagon road leading from the city of Corvallis to the city of Albany; and

WHEREAS, If the navigable channel changes a mile or any distance from its present location great damage will result, not only to the city of Corvallis but to a large number of our people, who wish to and do ship grain and other agricultural products by water; and,

WHEREAS, If navigation is impeded or suspended at all, great injury will result to the whole people of this section of our State; and,

WHEREAS, The destruction of a large amount of farming lands worth many times the cost of the necessary river improvements will work a great hardship on its owners and on the community in general; and,

WHEREAS, The destruction of a portion of the wagon road leading from the city of Corvallis to the city of Albany will make a hardship on both cities and to the people along the road; and,

WHEREAS, The river bank can be secured or the channel changed to a safe position cheaper now than at any future time,

Therefore, in order to prevent the great damage which is liable to be done at any time of flood,

Your memorialists pray the amount estimated to be necessary by the United States Engineers in charge of this District for the improvement and securing of the river at this place be appropriated for this purpose.

REPORT.

SENATE CHAMBER,)
SALEM, January 28, 1887. }

Mr. President—Your Committee on Judiciary, to whom was referred Senate Bill No. 61, beg leave to report that they have had the same under consideration, and would respectfully report it back to the Senate with the recommendation that the bill hereto attached be adopted as a substitute for S. B. No. 61 :

SENATE BILL NO. 161,

Introduced by the Committee on Judiciary.

A BILL

For an Act for the Recovery of Real and Personal Property Escheated to the State and for the Disposition of Estates Where the Heirs are Unknown or Disabled from Claiming the Same, and to Repeal Chapter XVI. of the Miscellaneous Laws of Oregon as Compiled by Matthew P. Deady and La Fayette Lane.

Be it enacted by the Legislative Assembly of the State of Oregon :

SECTION 1. When any person shall die without heirs, leaving any real or personal property, in this State, the same shall escheat to, and become the property of the State.

SEC. 2. The State may maintain any action, suit or proceeding,

necessary to recover the possession of any such property, or for the enforcement or protection of its rights thereto or on account thereof in like manner and with like effect as any natural person. Such action, suit or proceeding shall be prosecuted by the proper District Attorney by the leave and under the direction of the Governor, and not otherwise.

SEC. 3. When the Governor is informed or has reason to believe that any real or personal property has escheated to this State, he shall direct the District Attorney of the Judicial District in which such property may be, to file an information in behalf of the State of Oregon, and in the name of the State, in the Circuit Court of the County in which such estate, or any part thereof is situated, setting forth a description of the estate, the name of the person last seized; the name of the occupant or the person in possession and claiming such estate, if known, and the facts and circumstances in consequence of which the estate is claimed to have been escheated with an allegation by reason thereof that the State of Oregon has right by law to such estate. Upon such information a summons must issue to such person requiring heirs to appear and answer the information within the time allowed by law in civil actions, and the Court must make an order setting forth briefly the contents of the information and requiring all persons interested in the estate to appear and show cause, if any they have, within such time as the Court making such order may fix, why the same should not vest in this State, which order must be published for at least six consecutive weeks from the date thereof, in a newspaper published in the County, if one be published therein, and in case no newspaper is published in the County then in such newspaper as the Court by order may direct.

SEC. 4. The Court, upon the information being filed with and upon the application of the District Attorney either before or after answer, upon notice to the party claiming such estate, if known, may, upon sufficient cause therefor being shown, appoint a Receiver to take charge of such estate and receive the rents and profits of the same until the title to such estate is finally settled.

SEC. 5. All persons named in the information may appear and answer, and may traverse or deny the facts stated in the information, the title of the State to lands and tenements therein mentioned, at any time before the time for answering expires; and any other person claiming an interest in such estate may appear and be made a defendant by motion for that purpose in open Court, within the time allowed for answering; and if no person appears and answers within the time then judgment must be rendered that the State be seized of the lands and tenements in such information claimed. But if any person appears and denies the title set up by the State, or traverse any material fact set forth in the information, the issue of

fact must be tried as issues of facts are tried in civil actions. If, after the issues are tried, it appears from the facts found or admitted that the State has good title to the estate in the information mentioned or any part thereof, judgment must be rendered that the State be seized thereof and recover costs of suit against the defendant.

In any judgment rendered or that has heretofore been rendered by any Court of competent jurisdiction, escheating real property to the State, on motion of the District Attorney the Court shall make an order that said real property be sold by the Sheriff of the proper County where the same is situated at public sale and upon such terms, whether for cash or credit or both, as shall be deemed for the best interest of the State. And if such Court shall deem it most advantageous for the State, it may direct that said lands be surveyed into lots and sold in specific portions upon such terms as to payments therefor as may be deemed best for the State.

After giving such notice of the time and place of sale as may be prescribed by the Court in said order, the Sheriff shall, within ten days after such sale, make a report thereof to the Court, and upon hearing said report the Court may examine the same and witnesses in relation thereto; and if the proceedings of such sale are unfair, or the sum or sums bid are disproportionate to the value of the portion sold, and if it appear that a greater sum can be obtained for said property, or any portion thereof, exceeding such bid at least ten per cent., exclusive of the expense of a new sale, the Court may vacate the sale and direct another sale to be had, and the new sale shall be conducted in all respects as if no previous sale had taken place. But if it appears to the Court that the sale was legally made and fairly conducted, and that the sum bid is not disproportionate to the value of the property sold, and that a greater sum than ten per cent., exclusive of the expense of a new sale, cannot be obtained, the court must make an order confirming the sale and directing the Sheriff, in the name of the State, to execute to purchasee or purchasers a conveyance of said property sold; and said conveyance shall vest in the purchasee or purchasers all the right and title of the State therein; and also directing that the purchaser or purchasers shall execute and deliver to said Sheriff his or their note or notes, payable to the Board of Commissioners for the Sale of School and University Lands and for the Investment of Funds Arising Therefrom, for the deferred payments, with a mortgage deed to said Board upon the property conveyed, to secure said deferred payments. And the Sheriff shall, out of the proceeds of such sale, pay the cost of said proceedings incurred on behalf of the State, including the expense of making such sale, and the remainder, together with said notes and mortgages, he shall deliver to the Dis-

district Attorney, taking his receipt therefor, which said receipt shall be returned by him to the Court.

SEC. 6. The Court before whom such proceedings shall be conducted shall allow to the District Attorney a reasonable attorney's fee for conducting such proceeding on behalf of the State, not exceeding ten per cent. on the amount of such sales, and the residue shall be paid and turned over by such District Attorney to the State Treasury of this State.

SEC. 7. Within ten years after judgment in any proceeding had under this title a person not a party or privy to such proceeding may file a petition in the Circuit Court of the County where such information was filed, showing his claim or right to the property or the proceeds thereof. A copy of such petition must be served upon the District Attorney at least twenty days before the hearing of the petition, who must answer the same; and the Court thereupon must try the issue, as issues are tried in civil actions, and if it be determined that such person is entitled to the property or the proceeds thereof, it must order the property, if it has not been sold, to be delivered to him, or if it has been sold and the proceeds paid into the State Treasury, then it must order the Secretary of State to draw his warrant on the Treasury for the payment of the same, but without interest or cost to the State; a copy of which order under the seal of the Court shall be a sufficient voucher for drawing such warrant. All persons who fail to appear and file their petition within the time limited by law are forever barred, saving, however, to infants, married women, and persons of unsound mind, or persons beyond the limits of the United States, the right to appear and file their petitions at any time within the time limited, or one year after their respective disabilities cease.

SEC. 8. In all cases of personal estate, the Court shall direct by order that the same be sold by the Sheriff as upon execution, and the proceeds be applied to the payment of the costs incurred by the State and the costs and charges of making such sale, and the residue to the District Attorney, who shall deduct therefrom his attorney fees, to be fixed by the Court, and the balance he shall turn into the State Treasury of this State.

SEC. 9. When the Governor is informed or has reason to believe that any bank, banker or banking institution in this State now has, or holds on deposit or otherwise, any fund, funds or other property of any kind or nature which has escheated to this State, he shall direct the District Attorney in the District where such bank or banking institution is located to file in the Circuit Court an information or bill of discovery, with proper interrogatories to be answered by the owner, agent or manager of such bank or banking institution, and upon the filing of such information or bill, the

Court shall order and direct, at a time to be designated in said bill, that said owner, agent or manager of such bank or banking institution shall, under oath, file an answer to said information and interrogatories, and shall specifically answer each and every interrogatory contained in such information or bill. If it appear to the Court from such answer, that said bank, banker or banking institution, has any property in its possession which has or may escheat to the State, it shall direct the said bank, banker or banking institution forthwith to bring the same into such Court, and the Court shall proceed to dispose of said property as provided elsewhere in this Act.

SEC. 10. Whenever it shall appear to the Governor necessary to employ additional counsel to aid the District Attorney in the prosecution of any action, suit or proceeding authorized by the provisions of this Act said counsel shall be paid such sum or sums for his, her or their services as the Court before whom such action, suit or proceeding is had shall deem reasonable, which compensation shall be paid out of the proceeds arising from such proceeding. And the Governor is hereby authorized and empowered to employ additional counsel in all cases in which he deems it for the best interest of the State.

SEC. 11. That Chapter sixteen (XVI.) of the Miscellaneous Laws of this State, compiled by Matthew P. Deady and La Fayette Lane, be and the same is hereby repealed.

COMMUNICATION FROM THE GOVERNOR.

To the Honorable the Senate and House of Representatives of the State of Oregon:

GENTLEMEN: At an adjourned meeting of "The Board of Commissioners for the Sale of School and University Lands," held on Tuesday, February 1, 1887, the following ruling was made:

In the matter of applicants for swamp lands since the passage of the law approved October 18, 1878, relating to such lands, who made applications for such land in excess of the amount specified in that Act, to-wit, 320 acres. *Held:* That such applications and the certificates based thereon are void, being without authority of law.

Following is a list of persons to whom such void certificates have been issued, together with the amount of the land included in such certificates, and also the amount of money paid thereon:

Total.....			564,969.60	\$ 142,846.90

From the foregoing list it will be seen that \$142,846 90 have been received as payments on the lands included in the certificates so issued.

I presume it will not be necessary for me to adduce any argument to substantiate the ruling of the Board. None whatever is needed. The rule is only the plain letter of the law. It must be observed and enforced. But while the Board shall do so, it is of the opinion that the purchasers of such land from the Board, through its misapprehension of the law, should be entitled to receive back the money so paid upon a return and cancellation of such certificates, with reservations, however, protecting actual settlers

who have purchased lands from persons holding such certificates. This the Board conceives to be nothing but what is just and fair. I would therefore suggest that provisions should be made by you for the return of the money so paid by the purchasers, to them, so soon as possible after such certificates upon which such money was paid are returned for cancellation.

Besides providing for the repayment of the money paid the State on such void certificates, it would be proper that the Legislature should make provision for the payment of outstanding warrants against the State. The amount of such warrants drawn upon the Swamp Land Fund amounts to \$52,406 09, and the interest due thereon, February 1, 1887, amounts to \$41,759 85, making a total of \$94,165 94. Accompanying this message is a detailed statement of such warrants and for what purpose drawn. The greater bulk of these warrants are drawing ten per cent. interest. At the same time the State is loaning money at eight per cent. This is very poor finance, and should be stopped. I would therefore recommend that a levy of one mill on the dollar be authorized by the Legislature, in order to pay these warrants and to return the money paid to the State on void certificates.

In your legislation in regard to this Swamp Land matter, I trust that you will endeavor to protect the actual settler, so far as possible, who has purchased in good faith.

The Legislature, in my judgment, should secure, before its adjournment, a solution of this Swamp Land matter, so that while injustice may be done to none, the State domain shall be parceled out, as was the intent and letter of the law, to actual settlers in small quantities.

A copy of this message has been furnished to the concurrent branch of the Legislature.

(Signed.)

SYLVESTER PENNOYER.

Mr. Gray, Chairman of the Joint Committee on the Dalles and Columbia River Improvement, submitted the following

REPORT.

To the Senate and House of Representatives of the State of Oregon:

Your Joint Committee appointed under Senate Joint Resolution No. 1, to examine the Dalles of the Columbia River, with a view to constructing, either a canal and locks, or a ship railway around those obstructions to navigation, and to report as early as practicable, by bill or otherwise for the consideration of the present Legislative Assembly; also to examine the Government canal and locks improvement at the Cascades of said river, and ascertain from the United States Engineer officer in charge, the condition of that improvement and the prospect of more vigorous work, and the time required for its completion; and also to ascertain from the United States Engineer officer in charge of the improvement of the said river below Portland and the jetty at its mouth, their present condition and the prospect for the energetic prosecution of such work, beg leave respectfully to report that we have performed the duty assigned us to the best of our ability, considering the limited time at our disposal. Your Committee left this city on Friday the 14th of January, 1887, and proceeded directly to the Dalles that same day and arrived there about 9 o'clock P. M., and the next day proceeded up the river as far as Celilo. We were met by the Board of Trade of

the Dalles city, who furnished a special train for the use of the Committee on the trip up the river, and showed us marked attention while in their city. Major Jones and Lieut. Burr accompanied us and the former, especially, rendered much valuable assistance and important information to us while examining the obstructions to navigation at the Dalles of the Columbia. The rocks and rapids here form a complete and total obstruction. Boats can neither go up nor down, and in consequence means must be adopted to pass them both up and down if complete river navigation is proposed. A survey of this portion of the river has been made, and the urgency of some immediate action with a view to the speedy removal of said obstructions is very great.

It is so apparent that an adequate permanent improvement will be costly, and therefore require a long time to complete it, that temporary relief which can be executed in the least time and at small cost should be looked for. As nothing except the survey has been made in the way of improving the river at the Dalles, it is quite plain that if an appropriation should be made by Congress, so that the work could begin next season, at the same rate at which the work at the Cascades has been carried forward, it will be at least twelve or fifteen years before the river there could be opened by a canal and locks. Though it is estimated that a boat railway could be constructed in much less time than that, if the full amount of money necessary for its completion could be obtained at one appropriation. The lowest estimate for a boat railway is nearly \$1,400,000, and it is not likely that the first appropriation will be made sooner than in 1888. A portage railway, around the obstructions in this portion of the river, offers a solution, because it can be built in six months and at comparatively small cost. It might be commenced near the Big Eddy and extended to navigable water above the Falls, a distance of about ten miles, and the cost of a double narrow guage track, with rolling stock and terminal facilities, would not exceed \$250,000, as estimated by Capt. Powell. And if the State would build this portage railway it could well ask Congress to undertake a more costly and adequate work, with a better prospect for a compliance with its request.

Your Committee on their return down the river made a hurried examination of the Government canal and locks improvements at the Cascades, and were greatly assisted therein by Captain Young, the engineer officer in charge of the work. At this point the obstruction to navigation is also complete. Here means must be adopted to pass boats both up and over the rapids. A canal with locks has been adopted for this purpose, and the work, as is well known, has been progressing for a number of years. When this

work is completed navigation will be continuous from the mouth of the Columbia to the Dalles, and will give an open and free waterway to all who wish to use it, and a healthy competition will be the result for all the trade centering on the river at and below the Dalles. The obstructions are caused by the river being forced through a narrow rocky gap in the Cascade Mountains, which very much contracts the waterway for a distance of about four and one-half miles. The greatest difficulty in the way of navigation is found at the upper portion of this constructed waterway; is known as the Upper Cascades, and is about one mile in length, and the remainder thereof, about three and one-half miles in length, is called the Lower Cascades.

The work here is being pushed forward with vigor and good judgment now, but owing to the delay caused by withholding the appropriation, the best part of the short season during which it can successfully be performed was lost. About three hundred hands are now at work, and Captain Young estimates that if he could have appropriations sufficiently large to supply all the labor and machinery which he could use in carrying forward his plans, the canal and locks could be completed and ready for passing boats in two years after this. The plan for the improvements here, as modified in 1880, is to "flank the Upper Cascades with a canal 3,000 feet long and to make the Lower Cascades navigable by clearing out islands, bowlders, rocky points and submerged reefs by blasting, thus increasing and smoothing the waterway."

For want of time your Committee did not visit the Lower Columbia, and have not been able to obtain the data necessary to make a report in regard thereto. Having performed the duty assigned us to the best of our ability in the limited time allowed, we returned on Monday, January 17, 1887, to this city. In closing this report your Committee herewith present a memorial to be presented to Congress for an appropriation of \$1,373,000 for the construction and equipment of a boat railway at the Dalles of the Columbia, and also one for the speedy completion of the canal and locks at the Cascades.

J. H. D. GRAY,
Chairman of Senate Committee.

P. P. PALMER,
Chairman of House Committee.

With the above report Mr. Gray, Chairman of the above named Committee, on behalf of said Committee, submitted and introduced Senate Joint Memorials Nos. 6 and 7 as follows:

SENATE JOINT MEMORIAL NO. 6.

To the Honorable the Senate and House of Representatives of the United States:

Your memorialists, the Legislative Assembly of the State of Oregon, respectfully represent that with the exception of the Cascades, a distance of about 160 miles, and the Dalles, about 220 miles from its mouth, the Columbia River is practically navigable for boats of average tonnage from the ocean to Kettle Falls, a point more than 700 miles above the Dalles, and that as the topography of the country through which the river flows is such as to preclude the building of railways, except at enormous expense, the vast region known as the Columbia Basin, comprising not less than 23,000,000 acres—most of which is susceptible of cultivation—must reach the market of the world through the channel and over the bar of the Columbia. That a careful survey and plans for a boat railway at this point, with detail drawings and estimates, have been made under the direction of Major W. A. Jones, U. S. Engineer, the cost of which is estimated at \$1,373,000, and if such sum could be obtained at one appropriation the work could be completed in two years after this. That owing to the low and safe banks of the river at the Dalles and the solid rock foundation that could be obtained here, this is a peculiarly favorable point for the construction and successful operation of a boat railway.

Your memorialists therefore respectfully pray that an appropriation of \$1,373,000 be immediately made for the construction of said improvement.

SENATE JOINT MEMORIAL NO. 7.

To the Honorable the Senate and House of Representatives of the United States:

Your memorialists, the Legislative Assembly of the State of Oregon, respectfully represent that the vast country drained by the Columbia and its tributaries east of the Cascade Mountains is rapidly becoming settled with an energetic and industrious people and producing an enormous volume of freight, which must seek the sea by nature's great highway in order to bring the expense of transportation within reasonable bounds. That while it is an imperative duty, as your memorialists believe, for the General Government to open this grand waterway from its mouth to the highest point of navigation thereon in the United States at the earliest date possible, yet some relief will be given to the people who are now oppressed

almost beyond endurance by the grinding monopoly now controlling the tonnage which seeks a market down said river by the completion of the Canal and Locks at the Cascades. That when this work is completed navigation will be continuous from the ocean to the Dalles, a distance of nearly 220 miles, and will give an open and free waterway to all who wish to use it, and the result will be a healthy competition for all the trade centering on the river at and below the Dalles. That it is estimated by the Engineer officer now in immediate charge of the improvements at said point that if an appropriation sufficiently large could be obtained to enable him to employ all the labor and machinery which can be profitably employed, the improvements could be completed in the year 1889 or two years after the present year.

Your memorialists, therefore, most respectfully but earnestly pray that an appropriation of \$500,000 for the early completion of said improvements be made.

On motion of Mr. Gray, 250 copies of the report with the accompanying Memorials were ordered printed.

Mr. Emmett submitted a number of petitions and remonstrances which were, by unanimous consent, referred with H. B. No. 40 to the Committee on Counties.

Mr. Lee introduced the following

SENATE JOINT MEMORIAL NO. 8.

To the Honorable the Congress of the United States:

Your memorialists, the Legislative Assembly of the State of Oregon, respectfully represent that there are now living in the State of Oregon a number of the Oregon pioneers who participated in the Indian wars commonly known as the Cayuse war and the Indian war of 1855-6.

These men in fighting the battles of the frontier, though not regularly enrolled in the army of the United States, engaged in a warfare as necessary in its character and as important in its results as that in which many now pensioned by the Government were engaged. They gave to the American settlers of the Oregon Territory that protection which they ought to have received at the hands of the Government. They risked as much, lost as heavily and suffered as grievously as though they had been regularly enlisted in the regular army of the country.

They secured the lives and property of the citizens and greatly facilitated the settlement and development of all that great country lying between the Rocky Mountains and the Pacific Ocean. This

great service has not been recognized by the Government, and we, your petitioners, most respectfully but most earnestly pray that the Congress of the United States will speedily take such measures as will result in placing the names of these citizen-soldiers upon the pension rolls of the Government.

On motion of Mr. Lee, S. J. M. No. 8 was adopted and 250 copies ordered printed by a unanimous vote.

Mr. Watts presented a number of petitions which, by unanimous consent, were referred with H. B. No. 18 to the Committee on Counties.

Messrs. Veatch and Wager presented a number of petitions which were referred to the Committee on Counties.

On motion of Mr. Simon, the Senate adjourned.

Mr. Barin, Chairman of the Committee on Commerce, submitted the following

REPORT.

To the President of the Senate and the Speaker of the House :

Your Joint Committee, consisting of the Senate and House Standing Committees on Commerce, to whom was referred certain questions concerning the locks and water power at Oregon City, under House Concurrent Resolution No. 20, beg leave to submit the following report:

That we have visited said locks in person and examined the construction, strength and durability of the same, together with their auxiliaries of canal and breakwater.

We find that both the upper and lower series of locks are built of stone in a substantial and durable manner; that the gates are entirely new; that the breakwater and canal, or the two canals, are built of wood on a stone and cement foundation, and that the whole work is, to all appearance, in good repair.

The owners of the water power have come before this Committee and asked that the State define its policy now with reference to these locks. If it is the intention of the State not to buy the locks, they desire to be informed of the fact, so that they can safely go on and improve the water power; and if the State intends to buy, they request that the terms be settled now, instead of waiting six years, when the State's option to buy will mature.

If the State buys, the owners want to reserve the right to use the canals for power purposes, but in such manner that transportation shall not be interfered with.

If the State shall agree to surrender its option to purchase, the owners are willing to obligate themselves to keep the locks open to navigation in the same manner and on the same terms as they now are, and to make such improvement and changes only as shall in nowise interfere with or hinder navigation.

Your Committee are of the opinion that the interests of all parties will best be served by determining now, if the Legislature deem it advisable, all the questions involved, instead of waiting. The parties desiring to develop the water power are in such position that they can profitably to themselves do a great work in developing an interest which is of the very highest importance to the public at large—the manufacturing interest.

We cannot believe that the interests of this State would be subserved by surrendering either now or at any other time the right to buy these locks and make them free; but we believe it to be fair to the owners of the power that the State should at least define its policy, so they can go on and develop their property; and we are satisfied that the State's option to buy, six years from now, will be a great obstacle if unsettled.

Your Committee believe that if the locks and canals could be purchased from the owners at a reasonable price, that such purchase would be to the interest and benefit of the State.

On motion of Mr. Barin, 200 copies of the report were ordered printed.

By unanimous consent, Mr. Hare called up S. B. No. 161 and he moved that the rules be suspended and the bill be read a second time by title now.

On this question the roll was called and the vote was:

Those voting aye were:

Messrs. Allen, Bird, Coleman, Cartwright, Chandler, Cauthorn,

Chamberlin, Dawson, Dimick, Emmett, Gray, Hare, Hamilton, Irvine, Lee, Looney, Miller, Rinehart, Shupe, Simon, Stanley, Steel, Veatch, Williams, Weatherford, Wager, Watts, Mr. President—28.

Nays—None.

Absent—Messrs. Barin and Siglin—2.

So the rules were suspended and the bill was read a second time by title.

Mr. Hare moved that the rules be further suspended and the bill be read a third time and placed upon its final passage now.

On this question the roll was called and the vote was:

Those voting aye were:

Messrs. Allen, Barin, Bird, Coleman, Cartwright, Chandler, Chamberlin, Dawson, Dimick, Emmett, Gray, Hare, Hamilton, Irvine, Lee, Looney, Miller, Rinehart, Shupe, Simon, Stanley, Steel, Veatch, Williams, Weatherford, Wager, Watts, Mr. President—28.

Nays—None.

Absent—Messrs. Cauthorn and Siglin—2.

So the rules were suspended and the bill read a third time, and the question being; "Shall the bill pass?" the roll was called and the vote was:

Nays—None.

Absent—Messrs. Gray, Veatch and Weatherford—3.

So the bill passed, and the title of the bill stands as the title of the Act.

REPORT.

SENATE CHAMBER, }
SALEM, February 3, 1887. }

Mr. President—Your Special Committee on Senate Resolution No. 15, to whom was referred certain charges against Senator J. P. Wager and to examine witnesses, beg leave to report that they have

taken the testimony of the witnesses in said matter and had the same under consideration, and would respectfully herewith transmit said testimony to the Senate with the recommendation that said testimony be spread upon the Journal of the Senate, and that no further action be taken by the Senate in the matter.

L. T. BARIN,
Chairman.

In the matter of the investigation against Senator Wager.

CHARGE.

That the said Senator Wager, while a member of the State Senate of Oregon, at the Session of the Legislature of 1887, was guilty of conduct unbecoming a Senator or a gentleman.

SPECIFICATION.

First—That between the 10th and 20th day of January, 1887, Senator Wager, while holding the position of State Senator of Oregon, did publish in a newspaper of which he is editor and proprietor, certain false and malicious charges against Senator Chandler of Baker County, Senator Hamilton of Grant County, Senator Stanley of Jackson, Senator Rinehart of Union and Senator Siglin of Coos and Curry.

Second—That in a certain communication written to the East Oregonian and published in said paper, between the dates aforesaid, and while said Wager was a member of the State Senate as aforesaid, the said Wager did refer to certain members of the Senate as a "ring," intending to be understood, and being understood, that certain corrupt combinations were formed by Senators for corrupt purposes.

Third—That in the communication last aforesaid he did say that his position in the Senate prevented him from saying much more; "that he knew some things and believed others," intending to be understood that there were corrupt combinations among members of the Senate, and that Senators named in said communication were in said "ring," or corrupt combination; that such facts were within his knowledge, all of which was false, malicious, and libelous.

Fourth—That in a certain communication to the said newspaper the said Senator did write the following: "That his reference to the 'Democratic contingent,' was intended to refer to the five Democratic Senators aforesaid." "One thing is sure: Pennoyer is no sycophant, no hypocrite, no tool; and of his uncompromising honesty, inflexibility of purpose there is no doubt. With all these qualities, however, he can really accomplish very little. The Legisla-

ture with its Republican majority and Democratic contingent to take the place of Republicans who are willing to break over party lines to serve the people, is against him, and will be against him in every effort for the better things, and such laws as they pass, and not others, can be executed." That all of that part referring to the position of said Democratic Senators toward Governor Pennoyer is willtully, maliciously and libelously false, written without evidence of the facts, and for the purpose of injuring the said Senators. That the said Senator Wager had no knowledge of any facts sustaining said libel, no knowledge or evidence of any kind that any or all of said Senators were not in harmony with the Democratic State administration, nor how they or either of them would vote on any proposition now pending or to be brought before this session of the Senate.

Fifth—That Senator Wager suffered, caused and instigated to be published in his said paper, between the dates aforesaid, the following false and malicious matter, to-wit: "Hamilton, Chandler and Rinehart, (Democratic) Senators from Grant, Baker and Marion Counties, respectively, deserve credit for their untiring zeal in the interests of the corrupt Republican ring."

Sixth—That the said Senator Wager caused and instigated to be published in his said paper and under his name as editor, the following: "From all accounts from Salem the united efforts of Union County's Senator don't amount to much. Both Senator Rinehart of Union County and Senator Chandler of Baker County have a love for Siglin, Simon and the rest of the Republican gang, including free rides on railroads. People of Union and Baker, wake up and get after your Representatives with sharp sticks." That all of the matters and insinuations contained in said article were false.

Seventh—That between the dates aforesaid there was published and circulated, without expostulation from the said Senator Wager, another slanderous article in his said paper, and under his name as editor, a grossly slanderous article, designated Senator Hamilton as a gambler, and applying vile epithets to other members of this Senate. That said article was written either by Senator Wager or at his instigation by one there and still in his employ.

Eighth—That all and each of the articles referred to in the specifications aforesaid were either written by Senator Wager or inspired by him by what he did write in letters and communications to his said paper or to his employes, and were written by an employe then and now in his service in said newspaper office, and that such as he did not write were in line and in harmony with such as he did write.

In the matter of the investigation of charges against Senator Wager:

I, J. P. Wager, member of the State Senate of Oregon, having

been charged with conduct unbecoming a Senator or a gentlemen, herewith file the following answer and defense to said charge and to the specifications alleged:

ANSWER AND DEFENSE.

First—The first specification is wholly denied. I deny that I published any false and malicious, or false or malicious charges against Senator Chandler of Baker county, Senator Hamilton of Grant county, Senator Stanley of Jackson county, Senator Rinehart of Union county, or Senator Siglin of Coos and Curry counties; or against any or all of said Senators, or any Senators, or anybody.

Second—I deny that in any communication written by me to the East Oregonian I referred to "certain members" as a "ring;" but admit that I did allude to Senators Siglin, Chandler and Hamilton as supporting, in my estimation, as far as a single vote spoken of would indicate that fact, "ring rule Republicans;" said words "ring" and "ring rule" being quoted, and intended to mean what I believed was generally talked of and understood among the people of the State at large.

Third—I admit the third specification, as explained in the preceding clause, except the last clause, and deny that such statements were false and malicious, or false or malicious.

Fourth—I admit that I wrote the quotation contained in specification four, but deny that there is therein any allusion to particular Senators by name or other description, but only in a general way to such Senators as by common report might be reasonably presumed to be vulnerable to such criticism.

Fifth—I deny each and every allegation in the fifth specification.

Sixth—I deny each and every allegation in the sixth specification.

Seventh—I deny each and every allegation in specification seventh.

Eighth—I deny each and all the allegations in specification eighth, except as hereinbefore stated.

J. P. WAGER.

SENATE CHAMBER, SALEM, Oregon, January 26, 1887.

Senate Committee on Resolution No. 17 met on January 27, 1887, at 9 o'clock A. M. of said day; called to order by the Chairman, Senator Barin, when the following proceedings were had: The specifications of Senator Siglin against Senator Wager were read and the answer of Senator Wager thereto was read, after which Mr. J. C.

S. Richardson was sworn as Clerk to take down the testimony in this matter.

Senator Siglin appearing in person; Senator Wager appearing in person.

First witness called on the part of the investigation C. S. Jackson, who was sworn to tell the truth, the whole truth and nothing but the truth, when he testified as follows:

TESTIMONY OF C. S. JACKSON.

C. S. Jackson being first duly sworn testified as follows:

DIRECT EXAMINATION

By Senator Siglin:

Question. Have you the papers and letters and telegrams called for by the subpoena?

Answer. I have.

Q. Will you produce them?

A. This is the correspondence I have received from Mr. Wager since he has been away. These are the papers from the 1st to the 20th.

Senator SIGLIN. That is all I care about till the 10th—from the 10th; that is all I wish to offer. I wish to have time to examine them, and introduce them for what they are worth, subject to objections afterwards, so as to give me an opportunity to examine them. I could not examine them to-day, and I will proceed with the evidence.

Senator WAGER. I have no objection.

Q. What relation does Senator Wager bear to the East Oregonian?

A. When he is at home he is editor of the paper.

Q. Does the paper carry his name as editor?

A. No, sir.

Q. Is it generally understood in the community that he is editor of the paper, and throughout the State?

A. He is known as the editor. So am I sometimes called the editor. I have owned the paper longer than Mr. Wager had any connection with it at all. I bought the paper myself.

Q. Will you state who was the author of the following: "Hamilton, Chandler and Rinehart, (Democratic) Senators from Grant, Baker and Union Counties, respectively, deserve credit for their untiring zeal in the interests of the corrupt Republican ring?"

A. I wrote that.

Senator WAGER. I don't like the form of the question, although

I don't intend to object particularly. If the question is whether I am the author I have no objection, but as to who is the author I don't see that it has anything to do with the investigation. I don't see that Mr. Jackson or any other person is on trial except myself.

Senator SIGLIN. The question is, it was published in a paper of which he is known to be the editor and I want to know who the author of it is, to go into the investigation to find where the responsibility lies. Then I expect to show that if he is not the author of it and if he read the papers afterwards and did not disavow it he made it his.

Senator WAGER. Although it is not a proper question I shall not object.

A. I wrote the article.

Q. Did it appear as editorial?

A. It did.

Q. Upon what information were those charges based, and from whom derived?

A. I got them from personal observation. I traveled around the country some myself.

Q. On what vote or action in the Senate if any were they based?

A. On what vote?

Q. Vote or action in the Senate were they based?

A. They are not based on any particular vote of the Senate. I had nothing to do with the Senate.

Q. Are you in possession of any facts, or were you at the time you wrote this in possession of any facts that indicated anything dishonorable, or that would in any manner impugn the honor of either of those gentlemen; if so, from whom derived?

A. I perceived that they hadn't taken any interest in any matters pertaining to our section of the country—is what I based the charges on; and I had some talk with parties that had had talk with these same Senators and they had also caused me to write those items. That item was written in reply to a little item that appeared in the Mountain Sentinel. It was on top of that item—that editorial comment—that appeared under the item of this Mountain Sentinel.

Q. Has not your paper, or the paper of which Mr. Wager is the assumed editor, persistently attacked the honor of all of the Senators—of all of the Democratic Senators from Eastern Oregon?

A. Not all of them.

Q. With the exception of Mr. Wager himself?

A. No, sir.

Q. Wait for the question. Including the Senator from Jackson County and Coos and Curry?

A. Never referred to the gentleman from Jackson County at all. If you refer to Mr. Stanley, I never mentioned a word about him.

Q. Were you in possession of any facts or are you now, that show that Senator Siglin of Coos and Curry has been guilty of any improper conduct in forming any combinations, corrupt or otherwise, with any other Senators at the Session of the Legislature or at any time?

A. I have no facts that I can produce, only the facts that I have gathered from talking with people and those kind of observations. That is all I have; I have no written fact, no proof which can be obtained.

Adjourned till 1 o'clock, January 28.

ONE O'CLOCK P. M., }
January 28, 1887. }

Same parties present excepting Senator Barin, who was absent on leave.

Examination of witness C. S. Jackson resumed.

Question. From your last answer, then, I understand that you are in possession of no facts justifying any abusive articles appearing in your paper against either of the Senators named. Am I correct in this?

Answer. I have facts ample enough to justify the articles.

Q. State the facts, and from whom obtained.

A. The facts are those that have been published for quite a long while in different papers and from personal observation; from talk with different individuals.

Q. In what paper have you read any charges against Senator Siglin impugning his honor as a Senator, and in what connection?

A. I don't know of any particular paper I read anything particular impugning his honor. I have read in different papers his connection as I connected his name in our paper.

Q. In what paper or upon what particular note or measure have you heard at any time his honor impugned?

A. I didn't say I had impugned his honor. I haven't heard that his honor was impugned. I haven't read in any paper that his honor was impugned.

Q. In your paper in mentioning the "Democratic contingent," to whom do you refer?

Objection by Senator Wager.

Objection overruled.

A. The "Democratic contingent" when it was mentioned, it was

mentioned in quotations. When that was mentioned I didn't name the parties I referred to whatever. I had seen in the Oregonian and other papers.

Q. What other papers?

A. I don't remember—my exchanges. I could bring them here and show them to you if you wanted them. Senator Siglin's name was mentioned in connection I think Mr. Rinehart. Those are the only two names I saw mentioned in connection with the articles in other papers. I saw letters, one letter particularly, written by a Salem man, that had reference to it; didn't mention names; and from those sources and from personal resources gathered by talking and parties from Salem, and in some correspondence I had with friends I gained information on which the articles were based.

Q. From whom were those letters, and what charges did they make against Siglin?

A. Didn't mention Siglin's name at all.

Q. What charges did they make against any of what you call the "Democratic contingent?"

A. As I said before the Democratic contingent wasn't any authorship of mine. I only put that in quotations when I used that term "Democratic contingent." I think you will find those items too in quotations. I think I got it out of the Oregonian. I don't remember particularly.

Q. Is it not a fact, then, that the only letter or letters, in which you got the idea of mixing the name of Senator Siglin came from Senator Wager?

A. No.

Q. Is it not a fact that you did write other articles not contained in these specifications in which you applied abusive names or vile epithets to members of this State Senate, nicknaming them?

A. I don't know whether they were abusive. They were named by names that didn't particularly belong to them. That was outside of these specifications though. They wasn't very abusive names. I have had them applied to me very often.

Q. Did you regularly send copies of these papers to Senator Wager?

A. I didn't send them. The mailing clerk did. His name is put down as a subscriber, just the same as any other man.

Q. Did you not each week receive letters from Senator Wager?

A. I received two or three letters. I brought them with me. They are here. The first letter I received I didn't. I lost it, or threw it away before I came. That is the only letter that had anything in reference to anything pertaining to these matters at all, and in that he only spoke of a blizzard. He thought it was a bliz-

zard for parties in Eastern Oregon—that is what he said. I knew Rinehart for many years; have known him quite a long while; had a talk with him before he left Pendleton. He promised to help us in matters pertaining to our section and he (Wager) wrote that it was pretty cold down here for him and his interests, and that was all. He mentioned no names in that letter at all. I tried to find it before I came. It was only a letter of a private nature, and I didn't keep it; didn't file it away at all. I filed all the rest of the letters after I saw it was apt to be brought up; that I might need them and filed them. If I had that I would be willing to show it.

Q. Did Senator Wager in that letter impugn the actions of any of the Senators as such?

A. I don't think you could make it impugning the actions. He only said that he hadn't been put on any of the committees, and he couldn't understand it. Didn't seem to be any ways mad about it at all; wasn't as mad as I would have been.

Q. Did he in any of those letters use the names of any of his co-Senators; if so, whose?

A. I don't remember of anyone in particular except Hamilton. He mentioned him; that is all. Your name wasn't mentioned in that connection whatever. He only mentioned the Senators that I knew personally, at any time in his correspondence, because he knew I had never met you. I knew Mr. Hamilton quite a while; Chandler, too. I have known his father, but don't know him; never met him.

Q. Did Mr. Wager, in any letter received by you, in any manner show any disapproval of the course of the East Oregonian in the abuse of Democratic members of the State Senate?

A. No; he didn't.

Q. Had you any idea, from any source, but what your article were in exact harmony with what Mr. Wager desired them to be?

A. I didn't think he would object to them very much. I own a majority of the stock in the publishing company and I had something to say myself.

Q. You being an entire stranger to me and some of the other Senators mentioned, what personal motive could you have had in the abuse and the dishonorable connection in which you placed us?

A. I don't consider it dishonorable connection whatever.

Q. Belonging to rings and combinations?

A. The Oregonian charges you with the same thing, and you have never seen fit to deny it.

Q. The Oregonian wasn't a member of the State Senate.

A. And I am not.

Q. But Senator Wager is.

A. He is able to stand up for his rights in any connection.

Q. Then I understand his cause of complaint was that he didn't get as prominent positions on Committees as he desired.

A. He didn't get the position that he ought to have had as a representative of Eastern Oregon. That is what I said.

Q. What position is that?

A. I should think he ought to have some representation on a question of great importance to us, and that was the railroad interest.

Q. In that letter, whose course was criticised? and was it in relation to the vote giving the President the authority to appoint the Committees?

A. In that letter there was nothing said whatever about that.

Q. In what vote of mine, now or any at time, did you think the interests of Eastern Oregon were neglected or injured?

A. The first time I remember of ever hearing your name mentioned in connection with anything against our interests was the last Special Session, if I remember correctly. I read the Oregonian very closely, and am pretty well acquainted with them myself; the writers are personally known to me, and for different reasons I read the paper closely; and it was in the Mitchell contest that I first become—knew that you were from Coos and Curry and that you were a Democrat. There is a young fellow used to work in our office by the name of Upton. Maybe you know him. He also told me—just in a personal way told me. I don't remember what the words were or anything about that; but, anyway, I got acquainted with you through him and through the Oregonian. I looked upon you as a man particularly advocating your own interests, and rather of your own mind, anyhow; wasn't a particular party man, and that you voted against the Democratic party as readily as you would against the Republican party. Naturally I classed you with the ring through my—through the information I gained from the Oregonian and the other sources. It may have been just and right, or may not have been; the future will reveal that. I didn't feel like making a personal trip to you and asking you if it was so. I didn't think it was necessary. Newspaper men really want something startling more than anything else. We try to be as truthful as we can, and don't criticize unless we have cause. Sometimes we find we are mistaken, and in that case we are willing to retract. If it turned out to be so in this case I wouldn't mind telling that you were a decent kind of a person after all; but I don't know whether my mind is changed or not. I don't want to accuse a man without having any reason for it; I don't like that principle. I had a talk with Rinehart. He seemed to be somewhat hurt about it, but I don't believe I will take anything back that I said about Rinehart.

Q. Then the attack upon me but for your information from the Oregonian wouldn't have been made in the East Oregonian?

A. No; I don't believe it would. I wouldn't have been any ways posted on your acts or anything about it. Their criticism somewhat misled me, if it misled me at all. I never heard Wager say anything about you. I never received a word from him that you were in any ways a rival or enemy of his; never intimated it. I don't remember as he ever spoke to me on this subject at all.

Q. We were strangers. I always regard a stranger as a friend till the attacks are made.

A. Mostly people like strangers better than they do friends. It wasn't done for malice though. I deny that, because I never wrote a line against a man because I disliked him, in my life. I never write a line about a man that I dislike for that reason—that people will attribute it to malice.

Q. How long has Mr. Wager been connected with the East Oregonian?

A. I think since August, 1883; may be sooner—little sooner—I don't remember exactly—'82—August, '82. He is President of the Publishing Company.

Q. Is he not generally understood throughout the State to be the editor of the paper?

A. Well, a good many articles have been copied and attributed to him that I really wrote, and sometimes articles have been attributed to me that he wrote. We keep no names at the head of the paper. We don't consider it necessary, never do. The Company is supposed to be responsible for anything that is said in the paper derogatory to a man's good name, and we have always made it a principle to retract if we made a mistake. If we found out we were wrong we were just as willing to acknowledge it as you are when you find out you are wrong.

Q. Has the attack upon me and that of the other gentlemen named during the present session been based upon any action of ours during this session?

A. I can't say there is particularly—some of the members—you don't occupy the same position as they do. I can't answer it collectively. Rinehart, his action in this Senate did draw some of the criticism, but I don't think that the criticism in his case was severe or any ways out of the way. He doesn't consider it such. Mr. Wager's letters that he wrote I read, and they simply made me write a little more that I would otherwise have been willing to, because I knew that when he talked a little he meant a great deal.

Q. Is it not a fact that you got your cue, as it is termed, from the letters that he wrote?

A. Well, I should think I did—yes. I believe he considers that

I did—I think what was published—that I got some of my information through his letters—through the letters that I published in the papers and which you read. From them I got the information you were a Mitchell Democrat—through these letters.

Examination by Senator Wager:

Q. Have I been the author of anything whatever, directly or indirectly, that has been published in the *East Oregonian* since the 10th day of January, 1887, except such as was signed by my initials, "J. P. W."?

A. No; I don't believe you have—only in this connection, if you hadn't written those letters to the papers no doubt I wouldn't have written some articles that I wrote. That is a question hard to answer. I might have been apt to mention Siglin anyhow.

Q. Was this letter you speak of about the Committees a strictly private letter or for publication?

A. Strictly private letter. It was in answer to one of my letters I had written about some private business. Wasn't meant for publication at all—not the least bit—neither did I use any matter in that letter in any publication. I thought it was not proper to do so.

Q. And whatever you have written was not from personal malice against any of these Senators that are spoken of?

A. Not a word—not a particle. I knew all the Senators mentioned except Mr. Siglin.

Q. What you did write, was it not written from a sense of public duty as the editor of a newspaper?

A. I felt it that way; I always did have nicknames in our paper; it is probably a habit with us Oregonians. My particular friends I call slableg, and all those kinds of things.

Q. Was it not generally understood and talked among people where you reside that the vote on the organization of the Senate was evidence that the Senators who voted—the Democratic Senators who voted for apportionment of Committees by the President did so in consequence of agreement, a preconcerted arrangement with the Republican managers against the interests of the people? I simply ask whether that was generally understood and talked?

A. That was the prevailing impression and talk around the office and around town; has been since I have been here too.

Q. Is it not a fact that I have frequently been absent for a week or several weeks at a time since my connection with the paper?

A. Yes.

Q. During any of those absences or during this absence have I ever instructed or directed or controlled you in any way as to what you should write or publish in that paper other than by the letters which I have written for publication?

A. You have not.

By Senator Weatherford:

Q. Who owns the paper?

A. I own the largest amount—of any one person—of stock. I bought the paper all myself at first, and then he came in with me afterwards.

Q. Was the paper run by a Board of Directors?

A. Yes, sir.

By Senator Wager:

Q. State in that connection the relation you bear to that company besides.

A. I am really the manager of it, and have the financial part of it on my hands; always looked out for it financially and other ways, and when Wager was away I had editorial charge of the paper also, and while he is there I do a great deal of the work. He doesn't confine all of his time to the paper for the reason it wouldn't pay him. He gets a certain salary while he is at home, and I get a certain salary all the time, and I am looked upon as having sole control of the paper, in nearly every connection, you may say.

C. S. JACKSON.

TESTIMONY OF SENATOR SIGLIN.

Senator Siglin, being first duly sworn to tell the truth, the whole truth and nothing but the truth, testified as follows:

First, in regard to the charge of any combination between myself, Senator Rinehart, Senators Stanley, Chandler and Hamilton with any Republican Senators as to the organization or the formation of the Committees prior to the introduction of the Dawson Resolution, they are entirely groundless. I had discussed the matter with no one and formed no combination except the discussion in the Democratic caucus in presence of the Democratic Senators. All talk that I had with anybody, prior to that, was individual, desultory talk, as men will have upon a subject concerning the organization of the Senate. I was from the first anxious that the organization should fall on that part of the Republican party which I regarded as friendly to me personally rather than that faction which I regarded as unfriendly to me personally. But I had never discussed the matter jointly with any other Democratic Senators or jointly with any Republican Senators by or in which any agreement was suggested or conclusions arrived at. The introduction of the Dawson Resolution taking the appointment of the Committees out of the hands of the President was a complete surprise to me. I saw that the Republicans were splitting up upon the question, and I believe that we would have a fairer show as Democrats upon the Commit-

tees by appointment by the Chair than by appointment by the Committee suggested. On the Committee suggested there were but two Democrats, both neighbors from the Willamette Valley; one of whom had never served but one day in the State Senate; and there were three Republicans, but one of whom, as I am informed and believe, voted for Carson in caucus; and I believed and do believe that, had that Committee been appointed, it would have been entirely under the Oregonian and Judge Boise; and I believe that in any winter picnics, so called, the name of Siglin would not have appeared once; and that I was to have had neither a position on the Judiciary Committee, nor upon any leading Committee in the Senate, but believed that, if they ever got the power, and still believe it, they would punish me for deciding, as I believe I did, the Senatorial election for them, which they appeared to be unable to decide for themselves. After they showed their muscle, and the Democrats split up as near even as we could split without killing one, then I took a decided interest in making it win, that is, in making the position which I took win, and the fact that it was successful I believe to be the cause of this whole attack upon me or my colleagues.

Another objection I made to the appointment of said Committee was that there were a number of old Senators here, I myself having been here since '80, and yet two-fifths of that Committee was composed of Senators who had never sat in this body or in any other Legislative body to my knowledge, for but one single day, ignoring us older ones for men with the smell of the ploughed ground scarcely from their feet; all of which I considered very unfair. And the Resolution coming from a new member was unusual, and showed a job. What I mean by a job is a preconcerted action outside of the Legislative Halls; and that these are the reasons for the "Democratic contingent," as the Oregonian and East Oregonian call it, combining with the Republican scavengers—also using their poetical language. So far as any combination or understanding as to preconcerted action upon any bill, bills or measures before, or to come before the Senate, is concerned, that is entirely without foundation, and they will be entirely unable to show a scintilla of evidence, unless it is perjured evidence; but the line between libel and perjury is not very thick, in my opinion. That explains my entire reason for the course which I took, and consider the reasons perfectly ample to me. In a contest between Republicans and Democrats where there was any possibility of a victory in sight, I never faltered for twenty-four years, and I have always lived where my party was in a decided minority politically. That is all.

Examined by Senator Wager:

Q. Then I understand from your statement, taken as a whole,

that your action and your vote in the matter of the organization of the Senate was wholly with regard to obtaining some personal advantage or to win or keep the friendship of Republican friends without regard to public interests?

A. No, sir; but I believed, first, that the Republicans with whom I acted were fairer men as a whole than those with whom Wager acted; secondly, I believe that if that party or faction were successful that I would be ignored as far as possible upon the committees, and I am the oldest Democratic member of this Senate and that a man would be placed upon the positions where I naturally under the rules generally governing, and the courtesies generally governing the assignment of new members and old members, would be rejected for new members, because that faction could use them; and I have since come into possession of facts that confirm the correctness of that opinion. I believed that my experience of seven years in the Senate would be worth more than a man of equal ability with an experience of but one day, upon committees, and I, like most men, love my friends better than I do my enemies. I think that evidence fully explains my motives. So far as the combination is concerned, or charges to that effect, they are entirely false. My opinion and my actions were my individual opinions, and controlled only by myself. The charges as to Joe Simon combining with me or me with him—I haven't spoken to Joe Simon concerning the formation of the committees nor concerning any bill that was to be introduced, or any other measure that was to be presented at all. Personally I am very friendly to Mr. Simon, but that is all. On measures we don't generally agree. So far he and Mr. Wager have agreed better as the records will show, but Wager sits closer to him.

J. M. SIGLIN.

7:30 P. M.,
TUESDAY EVENING, February 1, 1887. }

Committee met and was called to order by the Chairman, Senator Barin.

Present same as before.

TESTIMONY OF SENATOR WAGER.

Senator Wager was called as a witness on the part of the investigation and being first duly sworn to tell the truth, the whole truth and nothing but the truth, testified as follows:

Examined by Senator Siglin:

Q. Mr. Wager, who is generally, commonly understood to be the editor of the *East Oregonian*?

A. I suppose I am.

Q. Have you read the *East Oregonian* containing the charges and the extracts alleged in the specifications filed by Senator Siglin in this investigation?

A. I am not sure whether I have seen every copy of the paper or not. I think I have read all of those extracts either in that paper or in the *Oregonian*; I believe so. There are one or two numbers that I missed, and I am not sure but that number might have contained some of them.

Q. Have you in any public manner prior to the institution of this investigation in any manner repudiated the same?

A. I have repudiated the authorship of some of them.

Q. In any public manner prior to this investigation?

A. I have.

Q. When, where and to whom?

A. On the floor of the Senate, about the 20th or 21st of January. I stated that I was not the author of anything except what appeared over my signature, which the papers would show.

Q. Was that not after Senator Siglin had taken the floor and called the attention of the Senate to the matter contained in the *East Oregonian*?

A. Yes, sir; in no other way or manner have I particularly or publicly repudiated them.

Q. In your denial of allegation three you say: "I did allude to Senators Siglin, Chandler and Hamilton as supporting, in my estimation, as far as a single vote spoken of would indicate that fact, 'ring-rule Republican,'" to what vote of Senators Siglin, Chandler and Hamilton did you allude?

A. Vote on the organization of the Senate.

Q. On what resolution or motion?

A. Several of them—two or three occurred perhaps; but particularly upon the question as to the manner of appointing Committees might have come up on more than one vote—perhaps two or three different votes.

Q. In all votes excepting upon the Dawson Resolution, up to that date, didn't Senator Siglin and Senator Wager vote identical?

A. I think so; as far as I can recollect.

Q. By whom was the Dawson Resolution introduced—by a Republican or a Democrat?

A. They call it the Dawson Resolution. I believe it was introduced by Dawson. I am not positive about that, though I understand Mr. Dawson to be a Republican. That is, I suppose, what you want to get at. He is so reputed.

Q. Then Mr. Siglin voted against a resolution introduced by a Republican while Senator Wager voted for a resolution introduced by a Republican—is not that the fact?

A. That is the fact.

Q. How did the Republicans divide upon that resolution?

A. Two votes—there were two—perhaps more than two—two at least different resolutions.

Q. On the Dawson Resolution I am questioning now?

A. The first one.

Q. Yes, sir.

A. I can't remember; I have never looked at the record; I don't remember; I didn't notice particularly; had no thought about Republicans or Democrats especially, at the time nor since.

Q. You say you had no idea of Republican or Democrat entering into the question?

A. Not at the time the vote was taken so as to notice it at that time; I don't think I did; I don't remember that I did. I thought of that afterwards, so far as the Democrats were concerned, but even then not particularly, as to Republicans that I know of.

Q. How did the Democrats divide upon that vote as to numbers?

A. That is a question I cannot particularly answer, on what the vote was. It comes to another question as to what the definition of Democrats is.

Q. Is it not a fact that five Democrats voted one way and six another, counting eleven Democrats in the Senate?

A. As the Democrats, as those were generally termed and classed as Democrats, have been commonly and publicly understood, that is the case.

Q. Do you consider yourself any better Democrat than Rinehart, Chandler, Stanley and Hamilton?

A. I am not in the habit of making any comparison between myself and other gentlemen as to whether I am better or worse than they are.

Q. Who did you mean by the "Democratic contingent" referred to in your letters? Please name them.

A. Please correct the question first; then I will answer. You say "letters." I think I used that term once, and only once. I wish to have the—I don't wish to have any inaccuracies in the question. If it does occur more than once I don't know it; I think not but once, though.

Q. To whom did you refer as the "Democratic contingent" in any letter or letters written by you?

A. At the time of the writing of that phrase I don't suppose that I had any particular individuals in view at all, but only a gen-

eral idea of any Democrat or Democrats that had or might in the future probably, judging from part circumstances, co-operate with a certain few Republicans in certain ways. I want to go a little further in explanation. I don't think I have quite answered the question; though, if the question had been put to me, I presume I might have mentioned Senators Siglin and Chandler, and possibly Hamilton.

Q. Did Senators Siglin, Chandler, and possibly Hamilton, vote any different from Senator Stanley and Senator Rinehart on any question in the organization of the Senate?

A. I think not; I am not sure; I think not.

Q. By what authority did you state that the Senators referred to as the "Democratic contingent" were against Pennoyer, and would be against him in any measure that he would bring up for the public benefit, and publish the same over the country?

A. The only answer, the only firm answer that I can give to that is, not by a very direct answer. I was writing what I wrote as a newspaper correspondent, really without any consideration particularly as to my position as a Senator; and that simply was not intended, nor do I suppose anyone ever considered it as such, to be intended as a positive assertion at all that such was the case; only as newspaper men almost invariably do as a sort of a possible prediction.

Q. Did you know of any misunderstanding between any of the gentlemen named and Governor Pennoyer, or that any of the gentlemen named were not in harmony with any recommendation of Governor Pennoyer for the good of the State?

A. None; unless all their past public acts and words were taken into consideration.

Q. Do you know whether Senator Siglin and the gentleman referred to in their past votes differed from the opinions of Governor Pennoyer on the same subject?

A. I don't; except judging by the same rule.

Q. To what particular vote of their past record do you refer?

A. I don't refer to any particular vote.

Q. Did you not write a private letter to the editor of the East Oregonian, or to the sub-editor of the East Oregonian in your absence, complaining of the course of the gentlemen referred to as the "Democratic contingent" by which or from which Mr. Jackson, the sub-editor of the East Oregonian, took his cue to abuse and malign the said Senators?

A. No, sir.

Q. Is it not a fact that you wrote a certain letter to the said Jackson, which now purports to be lost, in which you referred to

these gentlemen and in which you stated a cyclone had struck Eastern Oregon?

A. Not that I remember.

Q. Did you not write a letter to him in which you complained of the treatment that you had received in the appointment of the Committees?

A. I think I can hardly call it complaining at all; I merely mentioned the fact—mentioned a fact; but of course, if you wish to get at what I wrote, I can state it. I don't propose to acknowledge what your question would indicate always.

Q. What were the contents of the so-called lost letter?

A. As nearly as I can remember, so far as that topic is concerned, I said (This letter was written perhaps in the evening or the evening after the appointment of the Committees.) that it looked a little cold down here for an Eastern Oregon man, or something to that effect; I don't remember the language; that I thought there had been—I was going to use a word, but I don't think I used any such language as that—but I thought the substance of it was that certain men had been put upon Committees in one or two instances where our instances [interests] were very greatly at stake, and which I had been left off; and that it was done to show the people of Eastern Oregon, and to intimate to them, the people of the Counties I represented, that I was not to have any voice in those matters, or something to that effect. I don't pretend to quote the language at all. That was as much of a complaint as I made, and that was a private letter written to Mr. Jackson. It was never published, and no authority to publish it. I don't know as he ever showed it to anyone in the world. I also wrote a somewhat similar letter to another gentleman. He might have it. It probably could be obtained.

Q. You stated that the "Democratic contingent" would take or were ready to take the place of the Republicans. Will you state where any of the five gentlemen who voted differently from you indicated by any vote that they were ready to take the place of Republicans?

A. Of course it could not have been indicated by any vote except the one you have been talking about.

Q. In the one you have been talking about, didn't the five gentlemen referred to as the "Democratic contingent" vote to table a Resolution introduced by a Republican?

A. I haven't said that I referred to any five gentlemen as the "Democratic contingent," yet. It might as well be explained right here that that word was used once and as a quotation from what had been repeatedly printed day after day here in another paper. Everybody, of course, understands that.

Q. In what paper?

A. In the Oregonian particularly, and some other papers perhaps.

Q. Who did you understand by the "Democratic contingent" as published in the Oregonian or any other paper?

I understand from the Oregonian standpoint. It named five I didn't class as the Democratic contingent. My recollection is that was after I had used the term. At any rate, I certainly had no mental or possible reference to one or two of these gentlemen at the time I used the term.

Q. Didn't the one or two of these gentlemen to whom you didn't refer vote exactly as the three to whom you did refer?

A. Yes, sir.

Q. Is it not a fact that in that vote you voted for a Resolution introduced by a Republican, while Senator Siglin, Senator Stanley and all of the other Senators from Eastern Oregon voted against it except yourself?

A. Yes, sir.

Q. Then who was voting with Republicans—you or they?

A. We both voted with some Republicans, before the Republican caucus. Upon the first Resolution we voted that way. Mr. Siglin voted against the Republican Resolution, the Resolution introduced by a Republican, and I voted for it. On the final vote I believe all the Republicans voted together, if I recollect right, except possibly one—one or two.

Q. Was it not a fact that two—

A. Perhaps two, I am not sure.

Q. Do you not know that it is generally conceded all throughout Eastern Oregon that the editorials appearing in the East Oregonian reflect your sentiments?

A. I don't know that.

Q. Do you not think that?

A. I think that when I am at home and there is no mark to show the authorship, that perhaps that is the case. When it is understood that I am away I don't suppose it is so considered at all, except what I write over my own signature.

Q. Do you not believe that Jackson took his cue from what you wrote to write what he wrote?

A. I don't think he could have taken much of a cue from what I wrote; there wasn't enough of it; he might have done so to some little extent possibly.

Q. Do you not believe that he did so entirely, and have you not believed that all the time?

A. I don't, and have not.

Q. Is it not a fact that on the Dawson Resolution you voted for

a Resolution introduced by a Republican, while every other Democrat from the entire Eastern Oregon voted against it?

A. Yes.

Q. Had you any promise under the Dawson Resolution of any position on any Committee?

A. I had not.

Q. Do you not know that throughout the entire history of Oregon when the Democrats elected the President of the Senate that the Republicans always without exception permitted him to appoint the Standing Committees, and that they had always accorded him and them exactly the same privileges that Siglin and the so-called contingent wished to accord to the Republican President?

A. I have never looked up the history of that.

Q. Do you not know that in the Dawson Resolution the Democrats of all of Eastern Oregon and all of Southern Oregon were entirely ignored?

A. I don't know; that is, at the time I didn't know; and I have never thought particularly about it since.

Q. Do you know now?

A. I don't remember the names of the Committee now; I don't think I could state them that was named.

Q. Is it not a fact that all the Democrats upon that Committee were Irvine and Coleman, one from Lane and the other from Linn, both farmers and neighbors?

A. I remember that Irvine was one; I have no recollection as to the other; I don't remember which one it was.

Q. Do you know whether there was any man on it—any Democrat on it from Eastern or Southern Oregon?

A. I presume not if Irvine and Coleman were the ones.

Q. Do you not know that one of the Democrats on it had served in the Senate but two days when there were men here—Democrats here who had served six or seven years?

A. Yes; I suppose that is true.

Q. Suppose you had been in this Senate ever since 1880 and then there was a Committee appointed to appoint the Standing Committees and you were ignored, and a man put on to appoint the Standing Committees who had served but two days, would you not feel as though you were ignored to a certain extent and not like it?

A. I don't know how I would feel about it. I might think a man that had just come in the Senate and only been here two hours was a better man than one who had served eight or ten years or forty years, so far as that is concerned.

Q. Would you think that if applied to yourself?

A. Undoubtedly—probably not—a man generally has a very

good opinion of himself, and I am about the same kind of a man as the rest of them.

Q. Don't you think, if a Resolution of that kind, after you had served here seven years, was introduced, that you would oppose it if it ignored you and took a new man entirely?

A. Oh! I don't know; I might; I think I would be—if I thought it would be a good Committee and a proper measure—I don't think I would allow it to cross me. I might not be that unselfish, but I think I am. All that I ever cared, and what I wrote before about being left off all Committees was not out of any personal ambition. It was only in regard to interests that I wished to represent for the people that I represented. Very little I care where I go or what I do.

Q. Then I understand that you deny the responsibility for anything that appeared in the East Oregonian, except what appeared over your signature, while a member of this Senate?

A. I do; I had no more to do directly or indirectly either in the way of authorship or instigation or inspiration of a single line that has been written in the East Oregonian, except what has been signed "J. P. W.," than any other man in this Senate, not a particle, and have not intended to have.

Q. Did you regard that the vote of the five Democrats against the Dawson Resolution in any manner called their Democracy into question?

A. Well, I don't know as I can say that it did as to the Dawson Resolution. I referred to the other Resolution after a Republican caucus had agreed to go the other way. I thought it looked that way.

Q. Is it not a fact that the Democratic or Republican caucus was held after the Siglin Resolution was introduced and not before?

A. After what?

Q. After the Siglin Resolution was introduced and not before?

A. I had reference—I don't remember what that Resolution was.

Q. That the President should appoint the Standing Committees?

A. Well, I think my recollection is there had been some caucus held both before and after. What I had reference to was the Resolution introduced, I think, by Senator Weatherford as to the appointment of another Committee making the President of the Senate the Chairman of it—at that time, or an amendment, perhaps.

Q. That was an amendment to Siglin's Resolution?

A. I hardly remember about the particular time of the caucus, but I was under the impression the caucus was held—at least the caucus results were apparent in the vote, particularly upon that amendment.

Q. In the Weatherford amendment to the Siglin Resolution wasn't

the Committee to appoint the Standing Committees still a Republican Committee in its composition?

A. It was a majority Republican—yes.

Q. Then you thought it called the Democracy of those five Senators in question because they supported a Resolution by a Democrat in preference to supporting a Resolution introduced by a Republican, as you did? Is that correct?

A. I don't know as I am willing to say that I called their Democracy in question. That is a very uncertain sort of a phrase. I thought one way and they thought another. That is all there is of it, I suppose. I never thought they ought to go to purgatory or be hanged, or anything of that kind for voting different from me.

Q. Not unless they were well hanged. Senator Wager, did you mean to be understood in anything you said or wrote that you were in possession of any facts or had any knowledge which in any way indicated that Senator Siglin in any vote that he had given in the Senate had acted any way but conscientiously?

A. No; I don't think I intended as much as that at all; I simply probably meant to criticise very slightly the votes those—of some who voted differently from me perhaps—not because I thought I knew better than they; I don't think I would go to that extent to say I called their conscience into—that they were doing false to conscientious principles at all in what I wrote.

Q. In referring to the "ring" or their voting with the "ring," did you mean to infer or to be understood that they had entered into any corrupt combinations or any combinations upon any bills now pending or to be hereafter brought before this Senate?

A. No, sir; I don't think I did.

Senator Wager upon being asked by the Committee if he had anything further to say stated:

I perhaps will say just a few words in order to make my meaning plain, though I don't know as it is necessary. So far as the editorship of this paper is concerned I desire to say this: I bought an interest in the East Oregonian in '82; since that time I have been engaged in practicing law and in editing the newspaper. At various times during that time I have been away, once or twice east; several other times upon other journeys; a length of time from one to eight weeks in duration. During these times I have never attempted to control or to suggest anything that should go into the paper except what I wrote as a correspondent, and that has been the case since I have been here. Mr. Jackson was the proprietor of the paper when I took charge of it, and has the largest interest in it now of any one individual. And I allow him to run it just exactly as he pleases, just the same as though I didn't own a dollar's worth of interest in it. A little further explanation: While I don't wish to be

understood as particularly retracting anything either as to words or ideas that I have said, yet in justice to myself and to this Committee I wish to explain a little further that when I use certain terms such as "ring" and "contingent," which I possibly did, I think, but once, it was more because they were convenient words and had been used frequently, seemed to be common use, than with any special reference to any certain individuals or any certain actions of those individuals, and certainly without any reference to any future actions of those individuals. Such a thing I never had in view at all; still, as I said awhile ago, that I suppose that if I had been questioned when I wrote that language, I possibly would have mentioned Senator Siglin and Senator Chandler and Senator Hamilton. I desire to say why I think the only reason why I would have mentioned Senator Siglin and Senator Chandler was because they were elected as Democrats and voted for Mr. Mitchell for U. S. Senator. I presume that probably is about the only reason that I would have given. So far as Senator Hamilton was concerned, I suppose the reason that I would have given was that he was elected as a Democrat, came here as a Democrat, and yet all the way through the organization he voted with the Republicans—a very unimportant thing itself, of course, as to results, but it looked to me as though he was playing false to his party and to the people who sent him there, and that was written soon after that occurred, I suppose probably, and so I might have considered him in that category. So far as Senator Stanley is concerned I don't suppose I ever thought of him any more than I did of Senator Coleman or Senator Weatherford. I don't have any recollection that he ever entered my mind. I don't know as Senator Rinehart did at that time. He is a man I have been acquainted with a good while, and never had anything but most friendly feelings for him. I guess that is all the explanation I have to make.

By Senator Siglin:

Q. Were you aware that Senator Siglin before his election publicly announced to the people of his District that if the Democrats were in a minority and a Republican had to be elected, that he would support Mitchell as against any other Republican; that he told his constituents that both through public press and otherwise; that he was elected straight upon that issue?

A. I think I had heard that. I have heard it said lately, and I believe I had heard it some months ago, something to that effect. But I had myself rather favored the election of Senator Mitchell as against any other Republican and talked that way to Democratic Representatives two years ago, and some of them had represented to me and told me positively that they thought the time hadn't come when a Republican—the election of a Republican was

certain; and it was more upon that opinion and that evidence that I based whatever adverse opinion I might have had to that vote.

Q. Did you not know that in 1882 Senator Siglin supported Senator Mitchell for the United States Senate; that I went home, was renominated and re-elected after making that record?

A. Yes; I knew that.

Q. That being the case, do you regard that he in any way played false to his constituents in the course that he took afterwards?

A. No; I can't say that he did to his constituents—his immediate constituents.

VETO MESSAGE.

STATE OF OREGON,
EXECUTIVE OFFICE,
SALEM, February 9, 1887. }

To the Honorable the Senate of the State of Oregon:

I herewith return Senate Bill, No. 15, entitled "An Act to authorize the construction of a bridge across the Willamette River between the City of Portland and the City of East Portland, in Multnomah County, State of Oregon," with my dissent.

The very large majority which the bill received in both Houses, and the great care which they evinced in placing restrictions on the grant conferred by the bill, under ordinary circumstances, would impel me to give my assent to the bill. But when I take into consideration the fact that the proposed bridge is an obstruction to the harbor of Portland, which has heretofore been open and free, that it will render comparatively valueless over 17,000 feet of the finest harbor frontage in the world, that it will practically cause the formation of a new harbor further removed from the city, and that it will thus cause the enhancement of the value of some wharf property by the virtual destruction of other wharf property, I am compelled to exercise my constitutional prerogative to prevent the consummation of such a serious blow, not only to the commerce of the City of Portland, but also to the material interests of the people of the whole State, who are all alike interested in preserving the commercial interests of the metropolis. In the construction of railway bridges across navigable streams, there necessarily have to be mutual concessions. Any bridge is an obstruction to commerce; but bridges must be built, the lines of river and railroad traffic must cross each other, and the interests of both should alike be guarded and subserved. If the site of the proposed bridge was the only or most feasible point for crossing the Willamette River, then there could be and would be no objection to its crossing at that point, provided the bridge was built at suitable height above the water, with draws of sufficient width, and of a character that would give the least possible obstruction to commerce. But when we take into consideration the fact that there

is no other point on the Willamette River between Portland and East Portland, or below the two cities, where the bridge would be so serious an obstruction to commerce as is the proposed site; that at this point the river is the narrowest from Ross Island to the Columbia; that it is less than eight hundred feet wide, while at the Morrison-street bridge it is fifteen hundred feet wide; that its current therefore is here stronger than at any other place between the upper part of the harbor and the mouth of the river; and that the width of such river would still further be narrowed by the erection of the piers necessary for such a bridge structure as is proposed by the bill, we are irresistibly forced to the conclusion that the railroad company was only looking to its own interest and was entirely oblivious to the interests of commerce, or that the location of the bridge was dictated by certain interests in real estate, to which both the interests of the railroad company and of commerce were alike ruthlessly subordinated. The erection of a railroad bridge at this point—the very throat of the Portland harbor—with a draw of only one hundred and fifty feet in the clear, means the virtual destruction of the harbor above that point. Sea-going vessels would never go above the bridge. The former President of the company now seeking this franchise, as well as the Judge of the U. S. District Court for Oregon, after examination by experts, both declared that any bridge in the Portland harbor would be an obstruction to commerce; and the statement was made by the former that no bridge on the upper Mississippi was built with less than an 180-foot draw, and by the latter, that on the Ohio River no draw was less than 160 feet, and that on both these streams navigation was confined exclusively to river boats. Here at the very mouth of the Portland harbor it is proposed to build a bridge with only a 150-foot draw, and is it to be supposed, if for river crafts alone 160 or 180 feet draw is deemed necessary on the Ohio and Mississippi rivers, that 150 feet would be sufficient on the Willamette for large sea-going vessels with tugs alongside? The idea is absurd on its very face. If the Legislative Assembly of the State of Oregon grants to the Oregon Railway and Navigation Company the franchise given by this bill it in effect places a padlock upon the harbor of Portland, and puts the key into the pocket of that company. That is the long and the short of the whole matter. For forty years Portland has been growing as it has grown on account of its splendid harbor facilities. Obstruct those facilities and you injure Portland. The large sea-going vessels would no longer spread their white wings at its wharves, but would be compelled hereafter to stop below the city at the wharves of the railroad company. It has been said that the erection of a bridge at the point proposed was a local question, and there has been a dis-

position to defer to local wishes. There never was a greater mistake. This is a question which affects all Oregon, and in which the representatives of the whole State are alike equally interested. The narrow gauge system of railway which threads the Willamette Valley on both sides of the river will have its terminal facilities in the southern part of the city of Portland. If the right is given to the Oregon Railway and Navigation Company by the Oregon Legislature to construct a bridge at the place designated in this bill all the grain shipped on the narrow gauge road will have to be carted about a mile in order to be loaded on vessels, thus subjecting the farmers along the route of that road to pay a forced tribute to the company that owns the bridge. And the people of Eastern Oregon are also equally interested in maintaining a free harbor for Portland. It was with the greatest pleasure that I transmitted to you last week from one of our Senators the gratifying news that there was a reasonable hope of soon having the Columbia River open to unobstructed commerce. Representatives from Eastern Oregon, the necessary complement to a free river is a free harbor. Of what particular avail would a free river be to that section of the country if the wharves of Portland are fenced in by a bridge so that its products would be compelled to seek the wharves below the bridge of the company that controls it, and to pay the tribute which, by reason of this monopoly of wharves, they would demand? In order to more fully show to the Legislative Assembly of Oregon, the irreparable injury which it is proposed to inflict on the commerce of Oregon by the obstruction of the harbor of its metropolis by allowing the Willamette River to be bridged at the very worst possible place and with an insufficient opening, I herewith submit the following findings of the Board of United States Engineers, who were directed by the War Department to examine the location of this bridge in accordance with the provisions of the United States Senate Bill 2,904, introduced by Senator Dolph in the first week of the present session of Congress.

U. S. ENGINEER OFFICE, }
PORTLAND, OGN., February 7, 1887. }

Hon. Sylvester Pennoyer, Governor of Oregon, Salem, Oregon:

SIR: Under instructions from the Chief of Engineers, U. S. Army, we have the honor to submit to you the following remarks upon the proposed bridge at I street, across the Willamette River at Portland.

The location is not in our judgment judicious, for the following reasons: It is at the narrowest point in the harbor, where the hydraulic conditions are such that the waterway is already too small for the discharge at high stages. The introduction of bridge piers

at this point would have a bad effect upon the regimen of the river, and might injure or destroy valuable portions of the harbor and ship channel. Furthermore, the location is not adapted to a draw of sufficient width, and the bridge would practically form the head of a harbor already limited in capacity.

From this point to the natural head of the harbor at Ross Island the deep-water frontage has a length of 14,000 feet on the Portland side, and about 3,600 feet on the East Portland side. Below it there is a length of 8,500 feet on the East Portland side, and not exceeding 3,000 feet on the Portland side. Above this point lies a considerable stretch of wide and deep river. To terminate the harbor at this point would necessitate the forming of a new harbor below it, at a considerable cost in the first place and a continuous cost for dredging for maintenance thereafter. This would entail a serious tax upon the commerce of the port.

The Board has further to remark that whatever location should be adopted the law should require—

1. That the piers of the bridge be placed parallel with the current at mean high water stages due to the river's own freshets.

2. That the clear headway under said bridge should be at least 10 feet at the highest known stage due to the same freshets.

3. That if the draw span be adjacent to either bank the right of wharfage on that bank should be extinguished for a distance of at least 700 feet above and 700 feet below the bridge; this for the purpose of insuring a free and unobstructed approach to the shore opening.

4. That rest piers should be provided above and below the pivot pier, with suitable filling between them, and also other accessory structures as may be needed for the safe passage of vessels.

5. That the company operating the bridge shall maintain at its own expense good and sufficient light and fog signals, and open the draw for the passage of vessels promptly upon reasonable signal.

6. That no rip-rapping or other filling or projections around the piers shall materially reduce the waterway between them.

Should the location at "I street" be approved, the law should require—

That the tracks cross Front street with a clear headway of 14 feet; otherwise the minimum height of the bridge above the river would necessitate the crossing of this street at a height which would seriously obstruct the said street at a point where the wagon traffic is heavy and which it cannot conveniently avoid, because the adjacent streets are vacated.

In conclusion the Board begs to state that the two lines of traffic along the harbor and across it can hardly exist together without serious concessions by each; and that a fair compromise would be

the surrender of the part of the harbor above Market street. A bridge at this point or above could connect with the North Portland terminal grounds by different practicable routes and form a junction for all the railroads centering at Portland. Draw openings at this point could be 160 feet wide.

Another alternative location for a railroad bridge, considerably below the harbor, would be at St. John's, where the draw openings should be at least 200 feet wide.

We have the honor to be your very obedient servants,

W. A. JONES,

Major of Engineers.

CHAS. F. POWELL,

Captain of Engineers.

EDW. BURR,

First Lieut. of Engineers.

This report, in my judgment, should be as conclusive in determining your vote upon this measure as it has been in determining my action in regard to it. With this report before them neither the War Department nor Congress will sanction the construction of a bridge at the site proposed by Senate Bill No. 15. Of what avail then would be the State Legislative authorization? While Congress cannot authorize the construction of a bridge within State limits (3 Wallace, 713) yet, "having power to regulate commerce with foreign nations and among the several States, and navigation being a branch of that commerce, it has the control of the navigable waters between the States, or connecting with the ocean, so as to preserve and protect the free navigation" (109 U. S., 385). If, in the judgment of the War Department, this bridge, at the site proposed, is a serious obstruction to commerce, the Federal Government, by virtue of its paramount authority in regard thereto, could and would interpose and prevent its construction.

But while I am forced to thus interpose my objection to the erection of a bridge at the place designated in this bill, I am not opposed to the construction of a railroad bridge at Portland, but, on the other hand, would most cheerfully give my assent to a bill that would not seriously interfere with the commerce of the city. The erection of the Morrison street bridge has already virtually destroyed about a mile of one of the finest harbors in the world. Conceding that, I would willingly give my assent to the construction of a railroad bridge at any place above that structure. And the railroad company could build a bridge above Morrison street at a much less expense than at the site proposed in Senate Bill No. 15, and without materially interfering with commerce.

All the restriction that I would wish beyond what is already stipulated in the bill would be one preventing the collection of fare

from foot passengers. While granting favors to railroad corporations it would not be amiss if the Legislative Assembly should grant for once one small favor to the poor man. The wear of foot passengers on the bridge is not really perceptible, and their free passage would work no other injury to the owners of the bridge than the loss of toll. For about thirty years past all legislation in this country, State and Federal, has been exclusively in the interest of the rich, and if now the Legislative Assembly of Oregon in one single instance should make one small provision in favor of the poor man it would shine out in the midst of the legislation of the country like a lighted torch in the midst of cavernous gloom.

While I feel compelled to give my dissent to this bill, I will state again that I am not opposed to the building of a railroad bridge at Portland, but would cheerfully give my assent to a bill providing for its construction in a place and manner that would not materially conflict with the commercial interests of Portland.

I veto the bill.

SYLVESTER PENNOYER,
Governor.

After the reading of the foregoing Governor's Message, Mr. Simon moved that the consideration of the aforesaid veto message be made the special order for 10 o'clock A. M. next Friday, and 500 copies of said message be printed, which motion prevailed, and it was so ordered.

REPORTS OF SPECIAL COMMITTEES.

Mr. Chamberlin, Chairman of the Joint Committee appointed under H. C. R. No. 1, to investigate the management of the Oregon Insane Asylum, submitted the following

REPORT.

To the Senate and House of Representatives of the Legislative Assembly of the State of Oregon:

GENTLEMEN: The Joint Committee appointed under H. C. R. No. 1, to investigate the management and condition of the Oregon Insane Asylum, report that the duty assigned to the Committee has been discharged, and we find that the patients are well supplied with all things necessary for their comfort, as far as the management is concerned.

The food furnished the inmates is wholesome and abundant. The greatest attention is paid to personal cleanliness.

The wards are clean and neat, with as perfect sanitary and hygienic surroundings as possible under all the circumstances.

We were pleased to notice the ample provisions made for mental diversion, so important to this class of patients, such as chapel exercises, music, dancing, etc.

The books of account are neatly and accurately kept. The institution was built with a capacity for 415 patients, and already there are under treatment 437 patients. This disparity between the accommodations and the number of patients is constantly increasing, greatly to the detriment of proper treatment of the patients. To remedy this evil, we earnestly recommend that immediate provision be made for the construction of a three-story wing at the eastern extremity of the present south wing. The addition should contain three wards, each with a capacity for thirty-three patients, and substantially similar in general arrangement and construction to the wards already built.

We also recommend that the institution be made independent as regards the water supply. To that end suitable reservoirs should be constructed and supplied with pipes and pumps, and thus the condition and safety of the buildings and the occupants will be secure. Proper fire escapes should also be placed on the outside of the building. Most of the walls in the wards where the patients are kept are lathed and plastered on studding. The plaster is being constantly broken by the inmates, and through the holes thus formed fire might at any time be communicated to the inside of the walls. To obviate this constant danger, as well as to improve the appearance of the walls, they should be properly wainscoted, say to the height of seven feet, with some suitable wood. The building also needs thorough renovation by kalsomining and painting on the inside; and an addition to the laundry for drying clothes should be built, as the drying room now in use is insufficient and needed for other purposes. The furnace under the central part of the building is in-

sufficient to heat that part properly, and should be replaced by a new one of greater and adequate capacity.

We recommend that proper steps be taken and provisions made for the foundation of a library for the institution under the direction of the Superintendent. In order to suitably accommodate the enlargement of the buildings, as well as to meet the growing wants of the constantly increasing number of patients, the institution should have more land. Real estate available for that purpose is not likely to be cheaper than at the present time, and the necessary land should be at once secured, especially as such property is always a safe investment. To carry out the foregoing recommendations, we estimate that the following appropriations are necessary:

Construction of new wing and furniture	\$ 37,000
Reservoirs, pumps, etc.	5,000
Wainscoting halls and corridors	2,500
Painting and kalsomining	2,500
Addition to laundry	1,250
New furnace	1,000
Fences on grounds and farm	2,000
Purchase of land	4,000
Library	300
Total	\$55,550

Respectfully submitted,

J. H. ROBERTS,
Chairman House Committee.
M. L. CHAMBERLIN,
Chairman Senate Committee.

Mr. Shupe, Chairman of the Committee appointed in pursuance of Senate Concurrent Resolution No. 4, submitted the following

REPORT.

SALEM, OREGON, }
February 4, 1887. }

To the Honorable the Senate and House of Representatives of the Legislative Assembly of the State of Oregon:

Your Joint Committee appointed in pursuance of Senate Concurrent Resolution No. 4, providing that a Joint Committee of five be appointed to examine the work done by the State Board of Immigration, and to report as to the advisability of abolishing or continuing said work, beg leave to report that, in accordance with the provisions of said Resolution, we went to Portland and made a careful and thorough examination of the work of the Board. The rooms or office occupied by the Board are located at the foot of Ash street, opposite the wharf where are landed all emigrants coming by the way of the Northern Pacific and Oregon Short Line Railroads. The location is a good one and is perhaps the best that can be obtained.

The display of the products of the State, consisting of grains, fruits, vegetables, minerals and of various kinds of timber, is quite extensive, and we find every County in the State represented by

something. In fact, we find that all available space in the office is taken up, and to add to this display would necessitate enlarging the office. We find, however, that many Counties are not fully represented, in that the products of the County are not fully displayed. Counties should see to it, if the Board is to be continued, that a more complete display of products is placed in the rooms of the Board. According to the reports of the Secretary, compiled from records in the office of the Board, about 16,500 people have visited the rooms of the Board in pursuit of information that would lead them to select a home.

It is also safe to say that about one-half this number have found homes in this State. Of those who have settled a large per cent. are men of families and have come with money to purchase and build up homes. To arrive at a correct estimate of the increase of the taxable property of the State, by reason of immigration would be almost an impossibility. According to the report of the Secretary of State, the taxable property of this State, as returned by the Assessors of the various Counties, aggregates the sum of \$76,567,795 00 for the year 1885, and \$79,128,778 00 for the year 1886, showing an increase for the year 1886 over 1885 of \$2,560,983 00.

Reports on file in the office of the State Board of Immigration, show that since June 1, 1886, persons representing the total sum of \$1,237,800 00 have found homes in the various Counties of this State. This makes a total sum of \$3,798,783, as an increase of taxable property of the State within the past eighteen months. It is safe to say that this does not represent the increase of taxable property by one-half. The population of this State, according to the census returns of 1885 was 207,450, and is now generally believed to be about 260,000, making an increase in population in the year past of 52,550. The census returns of 1885 and returns of the assessors of the various Counties of the State show that the total amount of taxable property of the State to each person residing within the State is \$370, and allowing that the present population is 260,000, which will show that the increase of taxable property for the year is \$19,443,500 00. Granting that only about one-fourth of this increase of wealth to the State was brought about by and through the medium of the Board of Immigration, we have an increase through this source of \$4,860,875 00, which at the present rate of taxation for State purposes, brings into the State Treasury the sum of about \$15,000.

The Board now has on hand about 26,000 copies of the pamphlet "Oregon As It Is" and 30,000 copies of German and Scandinavian circulars, and 3,000 books furnished by the various counties of the State. Since its organization the Board has distributed about 400,-

000 copies of literature and pamphlets in relation to the resources of the State, all of which have contained an invitation to the person receiving it to come to Oregon, and call at the office of the Board of Immigration and obtain free of charge information in relation to suitable localities in which to settle. To abolish the office at this time would be a breach of faith on the part of the State and would leave emigrants at the mercy of real estate agents and speculative sharps, many of whom no doubt would represent themselves to be agents of the State, thereby deceiving the emigrant and possibly causing many to return from the State convinced that a serious wrong had been perpetrated, and feeling that they had been basely deceived. In the matter of the reduction of rates by railways we find that an appeal was made to all railways operating in this State for reduced rates to immigrants seeking homes with us, and the only company that responded at that time was the Oregon & California Railroad, who granted a rate of three cents per mile, which has ever since been maintained.

The Oregon Railway and Navigation Company granted round trip tickets at one and one-fifth the regular rate, which to an immigrant was no reduction, as a person seeking to settle would not wish to return to Portland. It was not and should not be the desire of the Board to induce immigrants to return to Portland, but to induce them to settle in the County to which they should go. In this manner, and through the action of a corporation which now holds the power, Eastern Oregon has not realized as much benefit as should have been. In November, 1885, the O. R. & N. Company, at the solicitation of a Committee of the Legislature, then assembled in Special Session, agreed to, and did grant special rates, the same as were granted by the O. & C. R. R. One hundred and thirty-five tickets were issued, and the order or agreement was rescinded or abrogated on the order of the officials against the advice of M. C. H. Prescott, the Manager. Since that time the old rates have prevailed. The Oregon Pacific Railroad gives rates at three cents per mile, and the Narrow Gauge System gives a rate at present—a recent order—of two cents a mile. Your Committee find that complaints have been made in the public prints that immigrants have not been distributed over the entire State, which has created in some localities a strong opposition to the continuance of the Board. That the people of all sections may feel that their interests are more or better guarded, we recommend that there be a general reorganization of the Board, so that a Commissioner may reside at the County Seat of each County, and also that more particular attention be paid to the collection and dissemination of information concerning our facilities for manufacturing. Therefore, your Committee have reported back to the Senate S. B. No. 130 with

sundry amendments, and recommend that the amendments be adopted, and that as amended the bill pass. The substance of the bill as reported is as follows: That there be created a Board to consist of one member from each County, which shall meet semi-annually, and the member from each County shall be the local agent for the Board for that County, and shall prepare or have prepared for the Board a proper representation or descriptive circular of his County for the use of the Board. Otherwise than in this manner the work of the Board shall continue as now carried on.

We have employed a clerk for five days, and recommend that he be paid for his services five dollars per day and mileage to and from Portland from this place, and that the Secretary of State be directed to draw a warrant for the mileage and per diem of the clerk on the certificate of the Chairman of this Committee.

RESOLUTION—COLUMBIA RIVER IMPROVEMENT.

WHEREAS, We, in common with all the people of Washington Territory, recognize that the opening of the Columbia River to public navigation is to the people of the Northwest of paramount importance, and that each year the completion thereof is deferred is a loss to the people of Oregon and Washington almost, if not quite, equal to the cost of such improvement;

Therefore, we, as the representatives of the people of the city of Walla Walla, promise to do all in our power to have the people of Oregon and Washington meet on common ground, and that any ad-

vance made by the Legislature of the State of Oregon looking to a joint effort of the people of the two jurisdictions for carrying forward this great work will have at all times the earnest co-operation and aid of the city of Walla Walla and the people thereof; and that all right and proper efforts will be made to induce the Governor and Legislature of this Territory to give the project their aid. In our opinion the proposition to have the work carried on by Oregon and Washington is perfectly justifiable and meets our approval.

To the Honorable the President of the Senate and Speaker of the House :

Your Committee, who were appointed in accordance with House

Concurrent Resolution No. 23 to visit and report on the condition of the School for the Blind, most respectfully submit the following report:

That we have visited said School and investigated its management and condition, and find that the building and all rooms are kept in a neat and orderly manner; but to insure the necessary sanitary conditions, there should be provided an adequate system of sewerage, a furnace for heating the building, and some changes should be made in the interior arrangement.

We find that the officers are entitled to credit for the general management and efficiency of the School, and that the pupils are making rapid progress in their studies and in music.

We believe that the State is only fulfilling a duty it owes to these unfortunates in providing an institution in which they may obtain a common school education, and we fully endorse the remarks and recommendations of the Superintendent of Public Instruction on pages 81 to 88 in his Report for the year 1886.

We recommend that the sum of two thousand dollars be appropriated for constructing a sewer, for necessary interior changes, repairs, furnishing and for the industrial department.

MESSAGE FROM THE GOVERNOR.

STATE OF OREGON,
EXECUTIVE DEPARTMENT,
SALEM, February 15, 1887. }

To the Honorable the Senate and House of Representatives of the State of Oregon:

I herewith enclose to you a letter from Hon. Henry Failing, a

member of the Constitutional Centennial Commission, dated at New York the 27th ultimo, enclosing a letter from Hampton L. Carson, Secretary of the last Commission, and also a printed copy of the proceedings of the Convention of Governors of the thirteen Colonial States, all of which have reference to the proposed celebration on the 17th of September next, at Philadelphia, of the Centennial Anniversary of the framing and promulgation of the Federal Constitution. It is highly probable that all of the other States will make preparation for having themselves represented at such celebration, and I therefore lay the before-mentioned documents before you for your consideration. A copy of this communication and the accompanying documents have been transmitted to your co-ordinate hand.

SYLVESTER PENNOYER,
Governor.

NEW YORK, January 27, 1887.

To His Excellency, Sylvester Pennoyer, Governor of the State of Oregon, Salem, Oregon:

SIR—In November last Governor Moody did me the honor of appointing me a member of the "Constitutional Centennial Commission," and I attended a meeting of said Commission at Philadelphia on December 21 last, held in accordance with the recommendation of the "Governors of the Thirteen Colonial States." I now beg to enclose herewith a letter addressed to me by the Secretary of the Commission dated January 7, mailed to my address at Portland on the 12th and re-mailed to me here.

The printed copies referred to in Mr. Carson's letter are, I presume, in Portland, and I have requested that they be mailed to your address, feeling assured that they can better be distributed from your office than in any other way.

I have to request that you will consider this with the "printed copies" referred to, as a report provided for in the resolutions of the Commission, and also to request that you will take such steps as you may think expedient during the present Session of the Legislative Session, in enlisting public interest in the programme adopted.

I am very respectfully, your obedient servant,

HENRY FAILING.

PHILADELPHIA, January 7, 1887.

Hon. Henry Failing:

DEAR SIR—I have the honor to send you by express printed copies of the proceedings of the Convention of Governors of the Thirteen Colonial States, held at Philadelphia, September 17, 1886, with the proceedings of the Constitutional Centennial Commission, held De-

ember 2 and 3, 1886, at Philadelphia; also copies of the Memorial to Congress, presented by the Executive Committee of the sub-Commission.

Should you need further copies be kind enough to write to me.

Allow me to call your attention to the resolution upon page seventeen, which provides that the Commission should be requested to report at once to the Governors of the States and Territories which they represent the action of the Convention, and ask the prompt and earnest co-operation of the States and Territories in carrying out the programme adopted.

I rely upon you to distribute these copies in the most effective manner, in order that State pride and interest may be aroused, and the matter called particularly to the attention of your State Legislature through your Governor.

Believe me to be eery respectfully and sincerely yours,
HAMPTON L. CARSON,
Secretary.

To the House of Representatives of the United States of America:

Your memorialists have the honor to represent the Constitutional Centennial Commission, which was organized in Philadelphia on the 2d of December, 1886, by the Commissioners appointed by the Governors of the States and Territories for the purpose of providing for the proper celebration by the nation of the Centennial anniversary of the Framing and Promulgation of the Federal Constitution.

No national memorial celebration can be of deeper significance than that which relates to the completion of the structure of our Government by its architects and builders, and its solemn dedication to the service of the people and mankind. That hour marked the most momentous epoch in our history. The labors of that day preserved for all time the precious fruits of freedom and self-government. Unique in origin; without a prototype in design; of enduring strength, and of phenomenal success, in the history of political philosophy the Constitution stands alone. Tested by danger and adversity, as well as by peace and prosperity, endeared to us by tradition and hallowed by experience, it has become the object of our reverential and affectionate regard. To it no American mind can be too attentive, and no American heart too devoted, and it is believed that the people will gather, as around a shrine, to commemorate by appropriate exercises the great work which was accomplished in Philadelphia by the statesmen of the Revolution, and to return in a devout and heartfelt manner their thanks to Divine Providence for the blessings which they have enjoyed during a century of federal constitutional government.

Animated by these feelings, and conscious of the sublime mean-

ing of the approaching event, the Commissioners have framed and outlined a programme of exercises which in their judgment would be appropriate. They have provided for the delivery of an Oration and a Poem in commemoration of the Signing of the Constitution. They have determined that there shall be a military display, in which the United States shall be invited to be represented by each branch of its military and naval service; that the several States and Territories and the District of Columbia shall be invited to be represented by their militia and volunteer service; that the President of the United States be requested to designate officers to command the same; that there shall also be an industrial processional display. That invitations to participate in the celebration shall be extended to the President of the United States and his Cabinet, to the Federal Judiciary, to Congress and the representatives of all departments of the Federal Government, to the Governor of each State and Territory, to the Judiciaries and Legislatures of the same, and the representatives of the several departments thereof; to the Commissioners of the District of Columbia, and to the various civic organizations and associations of the Union; that the resident representatives of the Foreign Governments having friendly relations with the United States be invited to participate. The Commission also resolved that there should be created in the city of Philadelphia a suitable memorial, commemorative of the signing and adoption of the Constitution and of the progress of the nation since that period.

Thus the Commissioners have endeavored to gather the people together in the city of that august Convention which framed the Constitution; and have invited them to visit the hallowed grounds of its birthplace, and by reviewing the scenes, recalling the deeds, and reviving the memories of the great statesmen who framed it, to renew their vows of fealty to the Constitution, and knit in closer bonds of union the members of our great Republic.

Your memorialists respectfully urge upon the attention of your honorable bodies the fitness of your hearty co-operation, and ask you by timely and appropriate action to authorize the Secretary of War and the Secretary of the Navy to arrange for the proper representation and participation by the military and naval services of the United States; to designate the troops and marines and their officers which are to take part, and to provide for the proper supplies and encampment of the men.

And your memorialists further petition that Congress shall by appropriate resolution recognize the importance and the dignity of the coming celebration and pledge their hearty co-operation; that the Nation shall be represented by competent Commissioners, who shall be clothed with authority to unite with the Commissioners of the different States and Territories in the prosecution of the work of

carrying out the details of the programme, and particularly the erection of a suitable memorial, to which each State and Territory shall contribute, but to which the Nation shall furnish the cap-stone and the crown.

And your memorialists further petition that the President be authorized to designate a competent Commission, to be charged with the duty of collecting and publishing all documents, whether drawn from the public archives or from private sources, which relate to the history and formation of the Constitution, including the debates in the Federal Convention and the Conventions of the several States which successively adopted and ratified the Constitution, so that a monument of historical literature may be built up, and a fund of information furnished for the instruction of the philosopher and the student when contemplating the political achievements of mankind.

And your memorialists further petition that Congress heartily cooperate in our work and insure the success of a celebration, national in its character and world-wide in its significance.

ADDRESS OF HAMPTON L. CARSON.

Governors and Representatives of the Colonial States:

The agreeable duty has been assigned to me of bidding you welcome in the name of the citizens of Philadelphia. You have been summoned to participate in the preparations now being made for the proper celebration of the centennial anniversary of the most important event in our history as a people, of the sublimest political achievement in the annals of mankind.

With uncovered heads and with reverent feet you entered, a few moments ago, the sacred Hall of Independence, and now, in the spirit of worshippers before a shrine, you stand upon the very spot where the first Continental Congress protested against the tyranny of the British crown. What a contrast between that day and this! Then a handful of feeble but heroic men, hemmed in upon a narrow strip of land between the ocean and the wilderness, without money or friends, of divided strength and distracted councils, dared all the terrors of destructive war in defense of life, liberty and the pursuit of happiness. To-day their children's children, gathered from the broad expanse of a continent as boundless as the sea, rich, happy, strong and prosperous, constitute the most powerful and re-

spected nation of the earth. Such are the results of a century of freedom. Such are the splendid trophies of local self-government. Such are the rich fruits of our Federal Union. Such are the blessings of man's conquest of himself.

We have met together, not for the purpose of commemorating the casting of the tea into Boston harbor, nor of recalling that day when the "embattled farmers fired the shot heard round the world," not to celebrate the Declaration of our Independence, nor yet to live anew in that glad hour of victory and exultation, when after six years of arduous struggle the sword of Cornwallis was surrendered to Washington, but to prepare to perpetuate by appropriate ceremonies that far grander and more memorable day when thirteen sovereign States, casting aside their conflicting interests, their rivalries and jealous fears, entered into a close and lasting Union, and gave to the world the Federal Constitution, which the greatest living statesman of England has pronounced to be "the most wonderful work ever struck off at a given time by the brain and purpose of man."

This is the occasion of our meeting, and it seems proper to review briefly some of the events which rendered a Union of the States both possible and necessary. Prior to the Declaration of Independence, none of the Colonies were, or pretended to be, sovereign States in the sense in which we now use the term. They were colonies, chartered, provincial or proprietary, dependent in a measure, upon the crown, although exercising many of the powers of self-government. But when, bending beneath the weight of oppression, they threw off their allegiance and proclaimed their independence, they became, "and of right were free and independent States." Without stopping to refine, or to closely scrutinize the exact nature of their powers, the Congress of '75 assumed at once some of the highest functions of sovereignty. They promptly took measures for national defense and resistance, equipped an army and navy, raised money, emitted bills of credit, contracted debts upon national account, established a national Post-office and prize Courts for the condemnation of prizes with appellate jurisdiction to themselves. In '76 they took bolder steps and exercised powers which were revolutionary. The validity of these acts was never doubted or denied by the people. In '77 the celebrated articles of "Confederation and Perpetual Union" were introduced, but were not ratified, so as to become obligatory upon all the States, until March, 1781. Shortly after this time, the war was practically at an end, and then it was perceived that the principal powers related to operations of war and were unsuited to times of peace. Congress could send out and receive ambassadors, but they could not command the means to pay their ministers at a foreign court. They could contract alliances, but

could not raise money or men to give them vigor. They could enter into treaties, but every State might break them with impunity. They could institute Courts for piracies and felonies on the high seas, but they had no means to pay either judges or jurors. They could contract debts, but could not pay a dollar. They could pledge the public faith, but could not redeem it. They could not raise any revenue, levy any tax, enforce any law, secure any right or regulate any trade. In short they could declare everything, but do nothing. Congress was at the mercy of the States. They had no resource except persuasion. There was an utter want of coercive authority to carry into effect a Constitutional decree. That power to enforce obedience—which jurists call the *sanction* of a law—was lacking. The disobedient could not be punished. No fines could be imposed, no imprisonment be inflicted, no privileges be divested, no forfeitures be declared, no refractory officers be suspended. The only way in which money could be raised was by requisitions upon the States, and compliance depended upon the patriotism and good nature of the Legislatures. Obedience was sometimes tardy, resistance was sometimes defiant. Without an executive, without a judiciary, without a balance wheel to control the violence of passion, the government, if such it could be called, was misshapen, palsied and powerless. Every measure, however just, required the assent of nine States, and however urgent the necessity for immediate action, involved the fatal delay of debate in thirteen separate Legislatures. The result was as might have been expected. The Union “was but a rope of sand.” The public debt amounted to forty-two millions of dollars, eight millions of which were due to France and Holland, our generous allies at the darkest hour of the struggle, and there was no power anywhere to redeem the National honor. Thousands of our best citizens, whose patriotism and bravery had saved the country, held the dishonored bills of the Continental Congress. The army, clamoring for pay, mutinous and sullen, threatened to open the flood gates of civil discord and deluge the land with blood. The navy, which, under Paul Jones, had proudly swept the seas, now cowered beneath the bold swoop of the corsairs of Algiers. Trade languished, commerce was dead. Rebellion reared its horrid crest in Massachusetts, and the Congress, which had braved King, Lords and Commons, fled from Philadelphia to Princeton, when insulted by a squad of mutineers commanded by sergeants.

At this day it is impossible to fathom the depth of that dark pit of degradation into which this Nation had been cast at the close of the Revolution. It seemed as if all the blood, the treasure, the sacrifices and the anguish of those eight years of war had been spent in vain. How empty was the boast that this was the “People’s

Government!" The fruits at which they grasped had turned like Dead Sea apples into ashes at the touch—the vision which had lured them onward now mocked them in their misery. Ruin, despair, civil paralysis, bankruptcy, disunion, discord, dishonor! The cynic might have sneered: "Far better would it have been to have paid that paltry tea tax, and argued rather than have thrashed the British ministry into acquiescence with our views concerning taxation and representation." But God stood "within the shadow, keeping watch above his own," and out of chaos evolved our beautiful political planetary system, where each State, while moving in an orbit of its own, revolves with the music of the Union about the Federal Constitution as a central sun. Then order came and peace to troubled hearts. Prosperity smiled upon us and benignant Heaven showered down her choicest gifts. Not Rome in her two thousand years of conquest, not England in her marvelous career, had ever witnessed or dreamed of the astounding growth and vigor which we have displayed in one hundred years of Constitutional Government. Not after the models of Achaian Leagues, nor of Italian Republics, nor of Swiss Cantons, nor of the Dutch Commonwealth, nor even of Constitutional Monarchy did our fathers build; but after a style of architecture all their own, inspired by faith in the great Giver of All Good and upheld by an unflinching trust in man, his powers, his capacities, his rights, his duties and his immortal destiny, they laid the deep foundation and reared the swelling dome of the People's Government, which, surviving the shock of foreign war and civil strife and furious debate, has emerged from every storm stronger, purer, sanctified.

In the presence of these hallowed memories, in this sacred hall, let us invoke the shades of our immortal sires, and like them, forgetting and forgiving all real or fancied wrongs, and rising above all sectional prejudice and jealousy, in a spirit of fraternal affection and regard, renew our vows of fealty to the Constitution, and by a fitting celebration of that great day when it became the organic law of our beloved Republic, proclaim to our children that for them as for us that Constitution is the Ark of the Covenant—the bond, the pledge, and the source of Union. Thus, standing in this temple of liberty, with our hands upon the horns of the altar and our hearts quickened with celestial fire, we can go forth without fear to meet the responsibilities of the century to come.

After the delivery of Mr. Carson's address, the Convention organized, and, upon motion, Governor Fitzhugh Lee of Virginia was elected as Chairman, and Hampton L. Carson, Esq., of Philadelphia, was chosen as Secretary.

A Committee, consisting of all the Governors present, was ap-

pointed to draft and submit resolutions, which were subsequently adopted, as follows:

WHEREAS, The adoption of the Constitution of the United States of America is the most important event in the history of the American people, and that instrument is the sublimest political achievement of mankind; and,

WHEREAS, The Centennial Anniversary of this memorable epoch is now close at hand; and,

WHEREAS, The Legislature of New Jersey has, by resolutions passed the 2d day of June, A. D. 1886, invited the Governors and Representatives of the Thirteen Original States to assemble in Philadelphia and consider the propriety of preparing for a National Celebration; and,

WHEREAS, The Governors and Representatives of said States have met in Philadelphia, upon the seventeenth day of September, A. D. 1886;

Therefore, Be it Resolved, By the Governors and Representatives of the Colonial States in meeting assembled, that the Federal Government, and each State and Territory of the Union, be invited to unite in preparations for a proper celebration, to be held at Philadelphia, upon the seventeenth day of September, A. D. 1887; that the President be invited to formally communicate to Congress, at their next meeting, the fact that this administration closes the first century of Constitutional Government, and to urge upon that body the propriety of taking measures to render the celebration worthy of an occasion of such dignity and importance; that the Executive of every State and Territory in the Union be formally communicated with, and urged to press upon the attention of their people the fitness of their hearty co-operation; that this body communicate, through its Chairman and Secretary, with the President of the United States and with the Governors of the States and Territories, and request them to appoint a delegate to meet in Philadelphia on Thursday, the second day of December, A. D. 1886; said delegates to organize as a permanent organization, with power to devise such plans and measures as will, in their judgment, secure a celebration worthy of so great an event.

Resolved, That the City of Philadelphia be requested to appoint a Committee of citizens to co-operate with said permanent organization.

The Convention then adjourned.

In pursuance of the Resolutions adopted by the Governors and Representatives of the Thirteen Colonial States, letters were addressed by the Hon. Fitzhugh Lee, Chairman, to the Governors of all the States and Territories, inviting them to appoint Commissioners

to be present at a Convention to be held at Philadelphia on the second day of December, 1886.

John Bardsley, Chairman of the Joint Committee of the Select and Common Councils of the City of Philadelphia, and from Thomas Cochran, Esq., Chairman of the Citizens' Committee, pledging their co-operation and support.

In response to this request, Commissioners were appointed by the Governors of Massachusetts, Connecticut, Rhode Island, New Hampshire, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, Tennessee, North Carolina, South Carolina, Mississippi, Florida, Ohio, Illinois, Iowa, Indiana, Michigan, Missouri, Oregon, Idaho, Wyoming, Dakota and Montana.

A letter was read from the Hon. Alfred T. Goshorn of Ohio, regretting his inability to be present, but accepting the position of Commissioner in behalf of his State. Hon. D. B. Lucas of West Virginia, Hon. John M. Palmer of Illinois, and Hon. John Hailey of Idaho, although appointed as Commissioners, were unable to be present.

Upon motion a Committee was appointed, of which the Chairman of the Convention was to be *ex-officio* a member, to confer with a Committee of Citizens of Philadelphia for the purpose of preparing and submitting a plan of procedure to be observed as appropriate to the proposed national celebration. The Committee consisted of Henry Cabot Lodge, Chairman; William Wirt Henry, James A. Hoyt, Edward W. Knight, John A. Kasson, Amos R. Little and Edward F. Jones.

The Committee of Citizens of Philadelphia consisted of Edward Shippen, Esq., Chairman; John Lucas, Edward T. Steel, Thomas J. Smith, Frank M. Etting, David G. Yates and T. Morris Perot.

The Joint Committee, through Mr. Lodge as Chairman, presented a report, which, after discussion, was adopted in the following form:

The Committee to whom was referred the duty of conferring with the Committee of Citizens of Philadelphia and with the Councils of the city of Philadelphia, in regard to the proposed celebration at Philadelphia, on the seventeenth day of September, 1887, of the Centennial Anniversary of the Signing of the Constitution of the United States, have the honor to report:

Fourth—That invitations to participate in the Celebration be extended to the President of the United States and his Cabinet, the Federal Judiciary, Congress and the Representatives of all Departments of the National Government, to the Governors of each State and Territory, to the Judiciaries and Legislatures of the same, and the Representatives of the several Departments thereof; to the Commissioners of the District of Columbia, and to the various Civic Organizations and Associations of the Union; and that the resident Representatives of Foreign Governments having friendly relations with the United States be invited to participate.

Fifth—The creation of a suitable memorial in the city of Philadelphia, commemorative of the Signing and Adoption of the Constitution and of the Progress of the Nation since that period.

It was also

Resolved, That the Commissioners should be requested to report at once to the Governors of the States and Territories which they represent the action of this Convention, and ask the prompt and earnest co-operation of the States and Territories in carrying out the programme adopted by the Convention; and that the Secretary be directed to make a similar report to the proper authorities of the United States and of the States and Territories which have not been represented in this Commission, and that the latter be again requested to appoint representatives in this Commission as early as possible.

On motion of Mr. Reeve of Indiana, it was

Resolved, That a Committee consisting of thirteen members be appointed, which shall be a sub-Commission, and have the powers of the general Commission, and be authorized to arrange and provide for all details to carry out the programme adopted, and shall have general charge, with power to appoint other committees and all managers and necessary officers to co-operate with other committees or persons who may be appointed to aid in the design; with power to confer all authority on all persons by them selected, and to carry into operation the details that may from time to time be decided on, subject at all times to the control of this body.

Jones, of New York; Clinton P. Paine, of Maryland; Alfred T. Goshorn, of Ohio; Thomas T. Gantt, of Missouri; Marcellus Green, of Mississippi; Henry C. Robinson, of Connecticut; and N. G. Ordway, of Dakota.

Judge Campbell of Michigan expressing his inability to serve, Charles G. Garrison of New Jersey was appointed in his place.

On motion of Mr. Little, it was agreed that the President and Secretary be made *ex officio* members of the sub-Commission.

On motion of Mr. Reeve from Indiana, the following resolution was adopted as amended by Mr. Richardson from Tennessee:

Resolved, That the Thirteen Commissioners appointed to take charge of the details of the celebration be authorized to fill any vacancies occurring in their own body unless action be taken by this organization, with power to add to their number representatives from States not at present represented in the Commission.

Resolved, That the sub-Commission be authorized and directed to memorialize Congress and ask their aid and co-operation in accomplishing the purposes of this great memorial celebration on the part of the people of the Union.

Colonel Hoyt of South Carolina offered the following Resolution, which, after debate as to the number of copies to be printed, was adopted:

Resolved, That the Secretary be instructed to print at least five thousand copies of the proceedings of this Commission, and to include the proceedings of the meeting of the Governors of the Original Thirteen States, held in this city on the 17th of September last, together with the opening address of Mr. Hampton L. Carson on that occasion.

On motion of Mr. Hazard of Rhode Island the Commission adopted the name of "The Constitutional Centennial Commission."

On motion of Mr. Henry of Virginia, the Hon. John A. Kasson of Iowa was elected President of the Commission, and the Hon. Henry Cabot Lodge of Massachusetts and Colonel James A. Hoyt of South Carolina were elected Vice-Presidents.

Mr. Lodge, as Chairman of the Committee appointed to prepare an address to the people of the United States, made the following report, which was adopted:

The Convention of Delegates appointed by the several States and Territories to take steps toward the celebration of the Signature of the Constitution feel it their first duty to call the attention of the country and of both press and public to the approach of this great Anniversary.

It becomes us also to recall the characteristics of the change in the government of States effected by the tranquil adoption of a system of checks to the heated impulses which political strife has always aroused. The barrier to hasty legislation effected by an organic law, unchangeable except by processes involving delay, and so securing an interval in which reflection might resume its sway over passion, was to all practical purposes a novelty a century ago.

The success of the great experiment depended eventually upon the reverence with which men might be brought to regard the fundamental and supreme law, and upon the determination to consider it, in the nature of things, inviolable, except by the surrender of every respectable attribute of an upright people.

Upon the existence of this reverence the statesmen of 1787 relied, and to its existence and preservation their descendants owe whatever is valuable in the institutions they inherit. To strengthen and quicken the sense of the sacredness of this principle and the paramount duty of observing it, and to admonish our countrymen that only by intelligent perception of its transcendent importance, can be assured a continuance of the blessings which make us the admiration of the world, seems a prominent duty of this Commission.

The successful formation of the Constitution was the most momentous event in the history of the American people, and marks an epoch in the history of the civilized world. Under the Constitution this great nation has grown up and prospered, and on the continued success of our system of constitutional government depends, in large measure, the future welfare and happiness not only of our own people but of mankind. We believe that the people appreciate, in a solemn and grateful spirit, the character of this celebration, and that they will give it that hearty support throughout the length and breadth of the land which will make it, in all ways, worthy of the occasion and the event.

The Commission then adjourned to meet upon the call of the President, or of the Executive Committee to be appointed by the sub-Commission.

On motion of Mr. Hare, the foregoing message and accompanying documents were referred to the Committee on Federal Relations.

On motion of Mr. Cauthorn, it was ordered that the following bills be made the special order for this evening at 8 o'clock, to-wit: House Bills Nos. 59, 60, 72, 94, 96 and 147 and S. B. No. 167.

Strike out all in Section 3, after the words “for sale,” in the 50th line of original bill, as follows to-wit:

And every such package, print or roll, sold or offered for sale, shall contain one-half pound or some multiple thereof, and no package shall be sold or offered for sale which contains any fractional portion of one-half pound.

J. B. LOONEY,
Chairman.

On motion of Mr. Irvine, the foregoing amendments were adopted and agreed to.

H. B. No. 145 having been read the third time, and the question being, “Shall the bill pass?” the roll was called and the vote was:

Those voting aye were:

Pending final action Mr. Wager moved a call of the Senate.

The roll was called and the following members were found to be absent: Messrs. Allen, Hare, Rinehart, Looney, Steel and Weatherford—6.

Upon the arrival of the absent members Mr. Wager moved that a further call of the Senate be dispensed with, which motion prevailed.

Mr. President—Your Committee on Claims, to whom was referred House Bill No. 225, for the relief of Fred Benkee, beg leave to report that they have had the same under consideration, and would respectfully report it back to the Senate with the recommendation that it do pass.

JOHN C. ALLEN,
Chairman.

The following is a copy of the report of the Joint Committee appointed under S. J. R. No. 3, referred to in the report of the Chairman, Mr. Dimick, made February 10, 1887:

REPORT.

Mr. President—We, your Committee appointed by Senate Joint Resolution No. 3 to investigate the books and papers of the State Treasurer and the State Board of Land Commissioners with reference to the management and sale of swamp lands, hereby make the following report:

Very soon after commencing the work of examination in the office of the State Board, it became evident that the Joint Resolution un-

der which we were acting required an impracticability, inasmuch as it specified numerous lines of report and stipulated that said report should be made to the Fourteenth Regular Session of the Legislative Assembly.

There are no maps or plats in the office of the State Board or in any of the State offices showing the location of the original filings or the supplemental or amended filings, and it is impossible to trace the course of many of them from the original through the amended or supplemental to the last specification of lots or tracts embraced in the certificates issued by the State Board.

In fact, the ruling or habits of the State Board, from the passage of the Swamp Land Act in 1870 until its repeal by the Act of 1878, rendered maps and plats in part unnecessary, as showing the exact location of tracts of land filed upon by the applicants to purchase swamp or overflowed lands. For how could any clerk, however skilled, delineate upon a map an unknown and undescribed area of swamp land lying between Beaty's Butte and Steins' Mountain and between certain parallels of latitude, or all the swamp land in a certain number of townships or sections, or all the swamp land between two towns, and south of a certain road, and north of a certain ridge? And such descriptions were accepted in the interval from 1870 to 1878 as aforesaid, and continued as regular by the State Board from 1878 until the present time. For proofs of this see Governor Thayer's opinion, in the Owens-Ish case, which has been the rule of the Board from the first.

The greater number of applicants, mainly for small tracts, of from 40 to 640 acres, were regularly described; but all of the large tracts, with one or two exceptions, were, as before stated, impossible of location upon a map, and consequently the Board has got along without the aid of maps.

The applications kept in envelopes are each numbered in the order of time as to reception, and each contains a short memorandum of the date of filing, the amount of money paid, the date of payment, date of assignment, if any, and the number in all over 1100. The greater part of them are valueless, as no money has been paid upon them, and the time for filing upon lands under the Act of 1870 has long since passed. Abstract "A" contains a list of all those upon which money was paid prior to January 17, 1879, the time when the Act of 1878 took effect. Many of those in Abstract "A" are quite indefinite, and the amounts paid, sometimes given in pencil and very brief, have to be guessed at. For instance, "16 pd," or "420 pd," being the 20 per cent. of the number of acres claimed, are presumably intended to mean that Thomas Cann, agent of the Board of Commissioners for the Sale of State Lands, did on a certain day receive \$16 or \$420 on the within application. The memoranda

upon applications received since Mr. E. P. McCornack has acted as Clerk are full and complete. The envelopes also contain letters, quit claim deeds, notices of assignment, memoranda of the return of purchase money, etc., and there are no other records pertaining to the applications.

According to Section 2 of the Act of 1870 it is made the duty of the Commissioner (now State Board) as soon as the selections of swamp lands in any County are completed to make out maps and descriptions thereof in duplicate, one copy to be kept in suitable books in his office, the other to be filed in the office of the County Clerk of the County where the lands are located; said County Clerk is then to forward his official certificate, upon the receipt of which by the Commissioner he is to publish a notice of said completion, approval and filing, after which, within ninety days, the applicants for the purchase of swamp lands under the Act of 1870 "shall pay 20 per cent of the purchase money," etc.

We find no records in the office that the law has been obeyed in respect to these last enumerated provisions. There is no proof of the publication of notice as required, and the Clerk of the Board, Mr. E. P. McCornack, has no knowledge of any. See his sworn statement accompanying this report. It is, therefore, impossible for us to tell whether the 20 per cent. payment by applicants has been made in conformity with law or not. Evidently a tender of the 20 per cent. payment, not in accordance with law, is not a legal tender, and binds no one.

By comparing abstracts "A" "B," it will be seen that the 20 per cent. payment had been made upon only a small part of the State swamp lands prior to the 17th of January, A. D. 1879, the date when the Act of 1878 took effect, and consequently the remainder, amounting to 567,798.60 acres, are subject to entry under the Act of 1878, and at \$2 50 per acre, will, when sold, yield the sum of \$1,414,495.

Under the ruling of the State Board, declared in the Owens-Ish case, which has been followed to this time, this large body of swamp lands has been disposed of, so far as the Board could dispose of them, for \$1 00 per acre, a direct loss to the State of \$848,697.

If the people of the State, by their Representatives in the Legislative Assembly, accept the ruling of the Board as the correct one, then there is probably no need of a report from this Committee, for there are no more swamp lands worth mentioning to sell.

The records of the office of the State Board for the last nine years show but four small sales of swamp land amounting to about 800 acres, under the provisions of the Act of 1878, a pretty conclusive proof that the aforesaid ruling leaves comparatively nothing to sell under the later Act of 1878.

We, your Committee, do not presume for a moment that we constitute a Court of law, but in response to the requirements of the Joint Resolution under which we are acting, asking us to report upon what authority the State Board have been issuing certificates or patents to swamp lands when the 20 per cent. was not paid until after January 17, 1879, it is proper to show the process by which the Act of 1878 has been and is defeated of its purposes.

Section 9 of the Act of 1878 provides that "all applications for the purchase of swamp and overflowed lands, or tide lands, made previous to the passage of this Act, which have not been regularly made in accordance with law, or which were regularly made and the applicants have not fully complied with all the requirements of the law under which they were made, including the payment of the 20 per cent. of the purchase price, are hereby declared void and of no force or effect whatever." This section of law is as plain as words can make it, but Governor Thayer, acting as the head of the State Board, said a "strict construction of this language might have the effect to forfeit all applications where the 20 per cent. had not been paid, although the applicant had fully complied with the law as far as circumstances would admit of a compliance." And, further, "The Legislature may have had the power to suspend every application of that character and declare it a nullity, *but* we don't think it so intended." * * *

The language of the law ought to be sufficient evidence of the intention of the Legislature, but if more is wanting to show that the Legislature did intend what it said, reference is hereby made to page 487 of the House Journal of the year 1878.

The record is as follows: "Mr. Gates offered the following amendment and moved its adoption: Amend Section 10, printed bill, by adding the following: *Provided*, nothing in this Act shall be construed as to forfeit or defeat any legal rights heretofore acquired under the laws of this State, or to prevent applicants for the purchase of any swamp or overflowed land from proceeding to comply with the requirements of said laws within the time therein limited."

This amendment was defeated by a vote of 48 to 9, thereby showing that the house was almost unanimously opposed to allowing applicants to go on and complete their work of acquiring titles to land under the Act of 1870, and it also shows that the nine members who voted for the adoption of the amendment did not understand Section 9 of the Act they were trying to amend, as Governor Thayer does. This legislative expression is conclusive as to the intent of the most numerous branch of the Assembly which enacted the law

of 1878, and there is not a particle of evidence that the Senate thought or intended differently.

Three able lawyers co-operated in drafting the Act of 1878, and all of them have said that they were exceedingly surprised at the assertion of Governor Thayer, that the Legislature did not intend to stop proceedings under the Act of 1870.

Even if it could be supposed that the intention of the Legislature was left in doubt, there could be no doubt as to the duty of the "State Board," which is composed of the Governor, Secretary of State and State Treasurer, all of them sworn to support the Constitution of the State, to see that the laws are faithfully executed, and all of them bound by the most sacred obligations which can bind men, to promote the general welfare, to conserve and protect the public interests, peace and prosperity. They can have no other rule of conduct than public justice and public policy, upon which all doubts as to the intent or meaning of the law must turn. A contract between individuals which is in violation of public policy has been declared void by the Supreme Court of this State and of other States, and if private persons may not offend against public policy how much greater are the obligations of the highest officers of State, who are especially commissioned to guard the public interests from invasions, without and within?

In the case of Ben Holladay vs. A. W. Patterson, to collect a subscription conditioned upon the laying of a railroad track in a certain line and building a depot in a certain place, which conditions were fulfilled, the Supreme Court of this State declared as follows, Fifth Oregon Reports, p. 177:

"It is not disputed but that contracts against public policy are illegal and void, but the appellant insists that the contract in question is not of that character. *Public policy* is a vague expression and few cases can arise in which its application may not be disputed. Mr. Story, in his work on contracts, (§546) says: 'It has never been defined by the Courts, but has been left loose and free of definition, in the same manner as fraud. This rule, however, may be safely laid down, that wherever any contract conflicts with the morals of the times and contravenes any established interest of society, it is void as being against public policy.'"

We do not wish to be understood as saying or implying that the State Board at any time have had contracts with individuals or companies prejudicial to the interests of the State, but we do wish to be understood as saying, that in their rulings as to the management and sale of all the lands of the State, they must consider that the people of the State have a paramount interest, and this interest is expressed by the phrase public policy. Let us admit that the Act of 1870, relating to the selection and sale of swamp lands, was a

public misfortune, in that it might lead to that most hateful of all conditions, land monopoly, but in so much more was the duty of our State officers increased to guard the public interests from unnecessary harm. Construction of a statute is a necessity with an officer who is called upon to obey it, but the construction must be a reasonable one, and, if possible, it must be subservient to the greater interests of society.

So, if a strict construction of the Act of 1878 would prevent land monopoly and give homes to the many, and thereby relieve or prevent discontent and promote the general welfare, then plainly it was the duty of the State Board to construe it strictly. But there is no longer any doubt as to the meaning or intent of Section 9 of the Act of 1878; none as to the intent of the Legislature which passed it, for undoubtedly it means that all applications for the purchase of swamp and overflowed lands which have not been regularly made and those that, having been regularly made, the 20 per cent. was not paid upon until after the 17th of January, 1879, "are void and of no force or effect whatever."

We think, therefore, that the ruling of the State Board as aforesaid, which has been their guide ever since its promulgation on the twelfth day of September, 1882, is erroneous and should be abandoned; and inasmuch as it is only a ruling of the Board and without the force and effect of law, we have considered that all lands denominated swamp or overflowed, upon which the 20 per cent. was not paid prior to the 17th of January, 1879, are still public lands within the reach of the Act of 1878, and subject to entry and sale under its provisions.

So also of applications which did not describe the tract or tracts the applicant desired to purchase, and which were not properly amended so as to conform to the law of 1870 before its repeal.

The description of the tract of swamp land claimed by H. C. Owen, which was the subject of controversy in the Owens—Ish case aforesaid, was declared regular by the State Board, but if such a description as given in that case is regular, what, in the name of common sense, would be considered irregular?

The Board evidently proceeded upon the theory of the old law maxim, "that is certain which may be rendered certain by measurement and calculation," but it was clearly a misapplication in that case. The question before them was not whether a deed conveying all the swamp land between Beaty's Butte and Stein's Mountain and between certain parallels of latitude would be a good deed, but whether the application of H. C. Owen described the tract or tracts of swamp land he desired to purchase "by the actual survey, by legal subdivisions or by fences, ditches, monuments or other artificial or natural landmarks." It is enough to say that the application of

Owen did not describe the tract or tracts in any way. He merely claimed all the swamp land in a certain region of country, which is no more a description of the swamp land in it than it is of the dry land or the lakes it contained.

This decision, by its effects, was not only an offense against public policy, in that it withdrew from sale and settlement the greater part of the swamp lands in the State, which otherwise might have been sold to actual settlers in half-section tracts for \$2 50 per acre, but it doomed the Swamp Land Office to a continuation of confusion from which no amount of clerical skill can extricate it.

Other circumstances contributed to the confusion and disorder aforesaid, one of the principal being the habit of the Board during the administration of Governor Grover in receiving partial or 20 per cent. payments upon unsurveyed and unlisted lands, a great number of the applications made prior to 1878 being of that character. So far as we can determine from an examination of the records in the State Land Office, it was the custom to receive money with the application, and in many such nothing appears to have been done since as to reclamation or the payment of the remaining 80 per cent. of the purchase price, although in some of them more than ten years have passed since the first payment.

Another source of vexatious uncertainty as to the legal status of swamp land claims is the total absence of records that should have been kept of the meetings, decisions and general work of the State Board or Land Commission for about four years, during the Grover administration. The first meeting (recorded in a book) was on the 29th of September, 1870, and the last recorded meeting, of which the present Clerk knows anything, was on the 11th of September, 1874. Thereafter, until the commencement of the administration of Governor Thayer, there are no book records, and none of any description sufficiently particular to be reliable. The Investigating Committee of 1878 also pronounced them so.

There is no evidence in the office that publication of notice was ever made in accordance with Section 2 of the Act of 1870; and upon this much depends, as within 90 days from the date of said notice the 20 per cent. of the purchase price was required to be paid upon all applications within the County, and a tender of payment before publication would not be a legal tender. Moreover, an applicant tendering payment within the time specified should not be deprived of his legal rights on account of the negligence or omission of the agent of the State. We have found evidence in but one case of notice having been published, and that not in accordance with law. The statute plainly says: "So soon as the selection of swamp and overflowed lands in any County has been completed by said Commissioner of Lands," thereafter the notice must follow, but

in the case referred to in Grant County there had been no completion of selections, and none to this day, and yet notice was given covering lands that one man, A. H. Robie, desired to pay the 20 per cent. upon; apparently a special favor. Upon the filing of said Robie is pasted a clipping from the *Bed Rock Democrat*, which reads as follows:

SWAMP LAND NOTICE.

“ Having received the maps showing the swamp and overflowed lands within Township 29 S., Ranges 31 and 32 E. and T. 30 S. and 31 E., and T. 28 S., R. 31 E., notice is hereby given that the Board is now ready to receive the payments of 20 cents per acre for all said swamp and overflowed lands.

[Signed.]

T. H. CANN,

Agent for the Board of Land Commissioners, Salem, Oregon, March 20, 1877.”

If this notice is a true statement, then the Board misunderstood the law, as to the point before mentioned, and further, as to the time when publication should be made, viz.: after the Board had received the official certificate of the County Clerk of Grant County that he had received and filed the maps and lists of the completed selections in said County, sent him by the State Board. There is no evidence that the maps, etc., were ever sent to the Clerk of Grant County; none that the said Clerk ever returned his official certificate.

It is, however, rumored that the selections were made, out of the usual and legal way to accommodate Mr. Robie, who has received a certificate for 22,055.67 acres of so-called swamp land. The greater part of these lands have been deeded, since that time, to Glenn and French.

The act of the State Board in allowing persons whose applications were declared void by the law of 1878, to go on and amend their applications and pay the 20 per cent. has of necessity revived the repealed Act of 1870, and so we find the Board making publication of notice of the completion of selections in Grant County on December the 6th, 1883, and in Lake County, September 23d, 1884, and decreeing, in absence of all law, that within 90 days from the date of the aforesaid publications applicants must pay the 20 per centum.

The result of such proceedings has been to give certificates of purchase to one man, H. C. Owen, calling for 484,779.85 acres. The applications and descriptions of Mr. Owen are so voluminous, uncertain and peculiar as to require separate mention, and accordingly they have been exhibited by the clerks in three papers, viz.: Ex-

hibit "D," "E" and "F." Exhibit "D" contains a list, as near as we could determine, of his original application, designated by number, and reaching from December 8th, 1870, up to January 9th, 1879. These applications are, for the most part, exceedingly irregular, as they do not describe swamp land or dry land, but include both in unknown quantities. As near as can be computed, they cover something over a million of acres, an amount vastly in excess of all the swamp lands in the State. They are, nevertheless, the basis of his large claims (now mainly in the hands of other parties), but upon which or any of them, no 20 per cent. payment was ever made until after the 17th of January, A. D. 1879.

Exhibit "E" contains the amended applications of Owen, designated by the date, being selections from the original filings, and so difficult to trace, as to be beyond the time allowed to this Committee.

They are 14 in number and cover over one million acres.

It is quite probable that they overlap each other, but of that fact, as there are no maps of filings in the office of the State Board, we cannot inquire.

Nearly all of them contain this announcement, viz.: "This application is supplemental to my application heretofore made," without naming them or designating them in any way.

Under such circumstances it would require several months' time to come to any accurate conclusion concerning them. They extend in time from July 30, 1878, to June 8, 1884, but no payment of 20 per cent. was made upon any of them prior to January 17, 1879.

Swamp land warrants were tendered in some cases and refused, and an application to the Circuit Court in Marion County for a peremptory mandamus compelling the State Board to receive them was also refused by Judge Boise on the 30th of September, 1878.

They were not a legal tender for the reasons given by the Judge of the Court, and for another reason, the time had not arrived when the Board could legally receive any tender. There had been no completion of the selections to be made in Grant and Lake Counties and no published notice that the Board was ready to receive money upon said lands in the aforesaid Counties.

Exhibit "F" contains a list of the certificates of sale to Owen, nine in number, and dating from July 26, 1880, to March 10, 1885, described by legal subdivisions, and amounting as aforesaid to 484,779.85 acres, of which only a small part is listed to the State by the General Government. Probably the greater part of it is not swamp land, as the lists at present received, including Ankeney's selections, many of which are known to be fraudulent, amount to less than 130,000 acres.

The 20 per cent. on these claims of Owen's, amounting to \$96,-

857-68, was paid in swamp land warrants and cash after the repeal of the law of 1870, viz.: after the 17th of January, 1879, and certificates issued to him by the State Board at the times given in the list of Owen's certificates.

We have therefore entered in our list of lands belonging to the State and subject to entry under the law of 1878 all the lands certified by the State Board to Owen under the dead Act of 1870.

In the case of W. B. Todhunter it will be seen, by an inspection of the papers herewith marked Exhibit A, B and C, that 14,516.91 acres of land, certified by the *State Board* to Todhunter, were not covered by his original application by legal subdivision, dated January 13, 1879, and cannot, therefore, have an older standing as a filing than his amended application of January 17, 1882.

Mr. Todhunter, however, claims these 14,516.91 acres by virtue of a quit claim deed from H. C. Owen, dated the 17th January, 1882, and the said Todhunter's claim must rest upon the validity of Owen's. Owen, as usual, claimed all the swamp land in the townships containing Todhunter's descriptions, but upon which there was no payment of the 20 per cent. by Owen or any other person prior to the 17th January, 1882. See certificate of sale No. 131, in Record Book. A portion of Todhunter's certified land claims rests upon the validity of Abbott and Whitesides' application. The latter made their first application November 2, 1875, describing by metes and bounds unsurveyed lands in Grant County, containing 5049.5 acres. Abbott appeared again before the State Board January 13, 1879, and presented an amended application, describing the lands aforesaid by metes and bounds, and accompanied by a map representing unsurveyed lands, in area about 5'800 acres, and tendered \$1.170 as the 20 per cent. thereon, which was refused by the Board for the reason that the description covered unsurveyed lands. On January 18, 1882, Abbott and Whitesides deeded their rights in said lands to Todhunter for the sum of \$6,000. It also appears that on January 17, 1882, one day before the said deed was made, Todhunter presented another amended application, describing by legal subdivisions, supposed to cover the lands embraced by Abbott and Whitesides' application and also lands claimed in that section of country by H. C. Owen, all of them covering 8,300.88 acres, being an excess of 3,251.38 acres above Abbott and Whitesides' original application, and supposed to be the amount claimed and deeded by Owen to Todhunter. Owen's claim to said land, however, rests upon an indefinite description, such as "all swamp lands in a certain number of townships," and also upon the more weighty fact that no money was paid upon it until January 17, 1882, when the State Board issued a certificate of sale to Todhunter for the whole amount of 8,300 acres.

This latter amount has also been placed by us in the column of swamp lands subject to entry and sale under the Act of October 26, A. D. 1878.

In the case of John N. Vance of Baker County, we find the following, to-wit: On the 13th of January, 1879, four days before the Act of 1878 took effect, he tendered with his application to purchase swamp lands \$1,042, which was refused because the application was for unsurveyed lands. On the 5th of January, 1882, he paid \$160 on a filing of 800 acres and obtained a certificate, No. 129. On the 22d of November, 1881, he paid in swamp land warrants \$1,120, and certificate No. 127 was issued to him for 5,600 acres, being a total of 6,400 acres, which we have placed on our list; abstract "B," for sale at \$2 50 per acre.

In the case of B. F. Hutchinson, which we have examined critically, it appears that he made application to purchase swamp land, fairly described by metes and bounds, amounting to 500 acres, and paid thereon \$100, as the 20 per cent., prior to January 17, 1879. After this latter date, and the listing of the lands within his description, it was found that the Surveyor had miscalculated the area in his original description by 62.31 acres, and the Board allowed him to pay \$12 46, the 20 per cent. on this difference, and issued to him a certificate covering the whole of his claim. Your committee considered that the transaction was in good faith by the applicant and that the State Board acted properly and within the intention of the statute. We have therefore placed the Hutchinson claim on Abstract "A" among those who paid the 20 per cent. before the repeal of the law under which they filed.

Although we are satisfied that very much legal uncertainty attaches to the list of applicants on Abstract "A"; that, technically considered, many of them may be deficient, and that while those applicants have been working and waiting for the confirming to the State the lands claimed by them, the 10 years have passed, in which they were required to make and prove reclamation, and pay the remaining 80 per cent of the purchase money, yet we are of the opinion, and hereby recommend, that where actual settlers have proceeded in good faith, their rights to a limited quantity of land should be protected by special enactment of the Legislative Assembly.

In the Abstracts and Exhibits herewith accompanying, there is nothing requiring further special mention in order that they may be fully understood.

On account of the shortness of the time in which to make our report, and the imperfections in the records pertaining to swamp land matters during the first eight years, after the passage of the Act of 1870, our work will be found necessarily imperfect and sub-

ject to some amendment in the future, but as to the principal object of this investigation, viz.: to ascertain the number and amount of applications to purchase swamp lands, where the 20 per centum was paid prior to the repeal of the Act of 1870, and also to ascertain the number and amount of applications where the 20 per centum was paid since the repeal of said Act, we believe this report will be found in the main correct.

Section 4 of the Act of 1870 declares that "No patent shall be issued to any applicant for any swamp lands until the applicant therefor has proved, to the satisfaction of said Commissioner, that the land for which he claims a patent has been drained or otherwise made fit for cultivation." And, further, "That all swamp land which has been successfully cultivated in either grass, the cereals or vegetables for three years shall be considered as fully reclaimed within the meaning of this Act."

This is very plain language; everybody can understand it; argument or analysis cannot make it plainer; and yet the deeds to nearly all the swamp lands sold by the State have been given in defiance of it, if we are to judge by the proofs of reclamation now on file in the office of the State Board.

All of the so-called proofs to which we refer admit that there has been no cultivation as commonly understood. According to Webster's Dictionary, the word cultivation as applied to land, means tillage, *i. e.*, plowing, harrowing, hoeing, etc.; and includes all operations which stir or turn the soil.

This also is the common meaning. Cultivating the soil or land in any crop is plowing and sowing or planting seed, either of grain, vegetables or grass, etc.

The test of reclamation, as given by the statute, is that an agricultural crop shall have been raised three years prior to the proof of reclamation.

What do the so-called proofs, made by affidavits of *disinterested* parties, say?

Not one of them declares that a cultivated crop of any description was produced at any time. On the contrary, the "proofs" show that the claimants cut wild grass and pastured their stock upon the Oregon meadows, called swamp lands; that such use benefited the lands, and that if the waters on or about them were drained away said lands would be injured thereby. Except in the misuse of the word husbandry the witnesses would not be held for perjury, as they probably stated the truth.

What they stated, however, is upon its face a confession that the swamp lands to which deeds have been issued have not been

reclaimed or made fit for cultivation, and that no agricultural crops have been produced upon them.

They swore that the applicants cut wild grass upon them; that some tame grass was found growing among the wild grass, and upon such proofs deeds were demanded.

The only question for the State Board to decide was, "Is wild grass an agricultural crop," or "does the trampling of horses and cattle upon swampy land make it dry and fit for cultivation?"

In what way these questions were answered, in the minds of the State officers composing the State Board, is not known, but it is a fact, of which there is no doubt, that upon such proof deeds have been issued to claimants for many thousand acres of so-called swamp land.

Section 4 of the Act of 1870 declares that "all swamp lands upon which no such proof of reclamation and payment has been made shall revert to the State," and we, therefore, append a list of lands upon which no such proof of reclamation has been made.

Section 3 of the Act of 1870 made it the duty of the Commissioner to issue to the applicant a receipt for the 20 per centum when paid, and upon the payment of the 80 per centum and proof of reclamation, the same officer was instructed to give the applicant a patent in the name of the State.

Upon the records it appears that the State Board, instead of issuing a simple receipt as the law required, substituted a regular certificate of sale, signed by the State officers and bearing the seal of the Board. It is scarcely necessary to say that such a certificate is unauthorized and extra legal, although it stipulates that upon certain conditions, viz.: the payment of 80 per centum and proof of reclamation a patent would follow.

This certificate of sale was formulated in 1872; soon abandoned, but re-adopted by the State Board after the repeal of the Act of 1870, which required a receipt, and was no doubt intended to confer more rights upon an applicant than a simple receipt would.

A receipt was evidence that money had been paid. The certificate upon its face is evidence that the land described therein had been sold, and that part of the money had been paid.

The claim of an applicant holding a receipt might be set aside at any time within ninety days after the publication of notice, upon proof that some other person had filed before him; but granting that the Board had authority to issue a certificate, there was no going behind it except for fraud, and upon it Courts can issue writs of ejectment against all persons going upon the lands described in the said certificate of sale for the purpose of acquiring title under the laws of the United States or this State. See Bellinger's opinion.

It is a curious fact that the business of the State Board was so

loosely conducted at one time that while one man, H. C. Owen, held a certificate of sale, it was proved by a contestant that he filed first upon the land in controversy, held the oldest receipt, and was the first to describe the tracts accurately by amended filings. A simple reference to the facts ought to have been enough to establish the contestant's claim without cost to himself; as it was, however, the extraordinary legal importance of the sealed certificate of Owen's, in the minds of the State Board, brought about a formal suit, costing him several hundred dollars.

It will be seen by consulting page four of the Biennial Report of the Board of Land Commissioners to the present session of the Legislative Assembly, that the Board for eight years has considered that a tender of money, or swamp land warrants, at any time, though refused, had the same force and effect as an actual payment. On the contrary, according to the law of 1870 the 20 per centum was not due and payable until after the lands were selected and approved, and not until after the publication of notice that the lists of selection had been approved and that they had been filed in the office of the County Clerk of the County in which such lands were situated. No lawyer will assert that a tender of money before it is due is a legal tender, or that a tender of money to the State before the law makes it payable binds the State adversely to the provisions of the statute which provides for the payment, and yet the State Board by its own admissions and the sworn statement of its chief clerk, has proceeded in utter disregard of the law which they were sworn to administer in conformity with public interests. As these tenders of payment in swamp land warrants were made and refused while the Act of 1870 was in force, and at a time when by that law no legal tender could be made, viz.: before the listing and approval of the lands, and before legal publication of the fact, the applicants acquired no rights on account of such tender, and the lands they were claiming would have passed over for sale under the Act of 1878, which only fixed the minimum price for them at one dollar per acre.

The Board in their last report claim to have been acting for the best interests of the State in selling its swamp lands, as much and as fast as possible at \$1 per acre, but it is a well known fact that these same lands are resold by the holders of the extra legal certificates and bogus reclamation deeds for from two to six dollars per acre, and there is no valid reason why the State could not sell them as well.

Your Committee, however, have not weighed this matter wholly upon the money basis. There are other and greater interests at stake, viz.: whether large portions of the public domain shall be certified and sold contrary to law, to men who will use them to ad-

vance their own private interests, or whether they shall be jealously guarded and sold under law for the promotion of public interests.

We do not hesitate to avow that, while we intend no private wrong or injustice to any individual applicant under the Act of 1870, we feel it our duty as representatives of the people to vindicate the people's rights, and insist that the laws shall be faithfully administered.

Whatever course may be pursued by the Legislature in trying to lessen the evils arising from past mismanagement and departure from the rule of law, such evils can only be in part modified or prevented. For, notwithstanding the precautions which the Board says it has taken, it has issued deeds and certificates to lands which have not been formally approved to the State by the Secretary of the Interior, and to which the State has no shadow of title. Now, although the Board says that "payments have been received upon the express understanding that the purchase was conditional and subject to the approval of the State of the lands on which the payments were made, and this condition was set forth in the certificate of payment," does anybody believe that the holders of said deeds will not besiege the halls of legislation during the next quarter of a century asking a return of the money paid by them as a consideration for these false conveyances?

Undoubtedly they will, and such a state of things is not only a great hindrance to just and proper legislation, and therefore exceedingly costly, but it will be a source of corruption from which any State might earnestly ask a deliverance.

SWORN STATEMENT OF E. P. McCORNACK, CLERK OF
BOARD OF SCHOOL LAND COMMISSIONERS.

Question. At what time did you become Clerk of the Board of Commissioners for the Management and Sale of School, University and State Lands, and how long have you served as such?

Answer. I became Clerk November 13, 1878, and have held the office until January 31, 1887.

Q. Are you well acquainted with the records in that office?

A. I am.

Q. Are there any records in that office showing the date and fact of publication of notice of the completion, approval and filing of lists

and maps, referred to in Section 2 of the Act "providing for the selection and sale of the swamp and overflowed lands belonging to State of Oregon," approved October 26, 1870?

A. It appears that the Board did order (see page 100 of Records) duplicate copies of maps of selections reported by Deputy Commissioner J. N. T. Miller in Jackson County, and that when such were made and approved by the Board to be transmitted to the County Clerk of Jackson County, and when the receipts of them should be acknowledged according to law by said Clerk, then the Clerk of this Board is ordered to advertise the land selected and approved in Jackson County in a newspaper published in that County, but the records do not show whether it was done or not.

Q. Were there any completed and approved lists and any publication of notices prior to the 17th day of January, 1879, covering the lands embraced in certificates of sale 123, 124, 127, 131, 133, 134, 135, 136, 138, 139, 140, 141, 142, 143, 144, 145, 146, issued to H. C. Wilson, W. B. Todhunter, C. C. Beekman, McConnahaughy, J. N. Vance and Owens on lands in Klamath, Lake and Grant Counties?

A. I do not know.

Q. Had the State any agent in the field selecting swamp land prior to the 17th of January, 1879, and if so, state who and give a list of his selections?

A. The State had selecting agents in the field prior to that time, but I am unable to give lists of such agents or description of the lands selected.

Q. Did the State Board employ any other means of selecting swamp lands than by the one mentioned in the last question?

A. I do not know.

Q. During your term of office did the State Board receive the 20 per cent. payment before the approval and publication required in the second Section of the Act of 1870, before referred to?

A. I cannot say, as I don't know what lands, if any, were advertised prior to January, 1879.

Q. Have you any knowledge from any source, or are there any records in any of the State offices going to show that the State Board did, prior to January 17, 1879, receive the 20 per centum on lands as to which there had been no approval and publication and approval, as required by the second Section as aforesaid?

A. From my examination of the papers I am convinced that it did, but I find no formal records of such an order.

Q. Had the Board any ruling upon this question of the time the 20 per centum should be paid, especially as it related to the approval and publication as before referred to?

A. None that I find of record.

Q. Has there been any change in the ruling of the Board upon this point?

A. None appears of record.

Q. Has the Board been following the decision of Governor Thayer in the Owens-Ish case, as to the points decided therein, viz.: the time when the 20 per cent. might be paid and the kind of description which might be termed regular?

A. It has.

Q. From your knowledge of the records before referred to, was it the practice by the Board during the time from 1870 to 1878, to accept money along with applications to purchase swamp lands, and before the listing, approval and publication as provided in Section 2 of the Act of 1870?

A. It appears that the applications and payment were often received on the same day, apparently without reference to the publication of notice.

Q. Has the Board, at any time since you became its clerk, received said payment before publication of notice?

A. Yes, it has received such payment before any publication of notice was made that I know of, but the publication might have been made before I became clerk, and therefore unknown to me.

E. P. McCORNACK.

Subscribed and sworn to before me this 7th day of February, 1887.

J. B. DIMICK,

Chairman of Joint Committee on Swamp Land Investigation.

†The above application was made to cover the swamp land in the application of John F. Miller, Quincy A. Brooks, also of A. J. Burnett, F. Cranston, B. Goldsmith and Warren Cranston, on file with the board. The tender was made in swamp land warrant and was made on behalf of Miller & Brooks and also the other mentioned applicants; the description in this application is so meager and defective that it is impossible to tell any thing about the land, and the payment being \$7,500 00 would be the 20 per cent on 37,500 acres, but it is impossible to state from the application whether there was that much or more.

RECLAMATION PROOF OF A. N. KING.

That for five years last past Amos N. King has caused to be cut upon the same (King's land) each year large amounts of hay; and in the year 1877 he caused red-top grass seed to be sown thereon; and in the summer of 1880 he caused to be cut thereon about 100 tons of hay; and in the year 1881 he cut thereon about 100 tons of hay; and in the year 1882 he has cut thereon about 90 tons of hay; that said hay was cut with mowing machines and the hay was hauled away in wagons, and the ground was firm enough to allow horses and wagons to go upon it and cut and bring away said hay.

REPORT.

SENATE CHAMBER,
SALEM, February 14, 1887. }

To the Honorable Legislative Assembly of the State of Oregon, in Salem assembled:

We, your Committee, to whom was referred House Concurrent Resolution No. 17, to examine and report upon the condition and management of the Penitentiary, respectfully submit the following:

We have examined all books and accounts of the aforesaid institution for the whole term included in the Superintendent's biennial report, together with all vouchers drawn, and all items in the invoice bills for which said vouchers were issued.

We find the items purchased in all departments to have been uniform and reasonable both as to prices and quantities.

We find the Superintendent's report substantially correct as published.

We found the books and accounts neatly and correctly kept.

While the food provided is ample and wholesome, it is not extravagant, and we find the general management of the prison to be conducted upon an economical basis and a credit to the administration.

We would respectfully submit the following recommendation:

First—We find a lack of protection against fire, and would recommend that the State provide hydrants and hose, the cost not to exceed \$1,500.

Second—We would recommend that a wing be built on the south end of the prison, the upper story to be fitted up for a hospital ward, and the lower part for an eating room.

Third—We would further recommend that the present system of feeding prisoners in their cells be abolished and meals be taken in an eating room.

We have examined into the charges preferred against Superintendent Collins by one E. C. Cross, and published in the Daily Statesman of the 4th instant, and after a careful examination find no evidence to sustain said charges.

All of which is respectfully submitted by your Joint Committee.

O. SUMMERS,

I. H. HOLLAND,

H. MCKENZIE,

Committee on part of the House.

J. B. LOONEY,

J. H. HAMILTON,

On motion of Mr. Looney, the report was ordered printed and referred to the Committee on Ways and Means.

Mr. Cartwright submitted Senate Memorial No. 9 as follows:

SENATE JOINT MEMORIAL NO. 9, IN RELATION TO A CERTAIN WAGON ROAD.

Introduced by Mr. Cartwright, Chairman of the Committee on Public Lands. Ordered printed February 15, 1887.

To the Honorable Senate and House of Representatives of the United States of America in Congress assembled:

We, your memorialists, the Legislative Assembly of the State of Oregon, in Legislature assembled, would most respectfully represent and show that by an Act of Congress, entitled "An Act granting lands to the State of Oregon to aid in the construction of a military road from Albany to the eastern boundary of said State," approved July 5, 1866, and an Act amendatory thereto, there was over eight hundred thousand acres of land granted to the State of Oregon for the purpose of building said road: That by an Act of the Legislative Assembly of the State of Oregon, approved October 24, 1886, in consideration of the Willamette Valley and Cascade Mountain Wagon Road Company agreeing to build said road, all rights belonging thereunder, were transferred to said company; and,

WHEREAS, Many complaints were made that said company had not built said road, or in any manner complied with the conditions of said grant; and,

WHEREAS, At the general session of the Legislative Assembly of the State of Oregon for 1885, a Commission was appointed by said body, ordering said Commission to report to the next session of said Assembly, its findings and evidence thereon; and,

WHEREAS, Said Commissioners did at the special session of said Legislative Assembly in 1885, make their said report, and recommended the passage of Senate Joint Memorial No. 6, and said Memorial was passed by said Assembly, but after the passage thereof some person or persons, desiring to defeat the wishes of the people of the State of Oregon, and the will and intention of said Assembly, did feloniously and surreptitiously mutilate and strike out from said Memorial, said wagon road. Wherefore, your memorialists pray that suits be brought in the name of the United States to cancel, annul, any and all patents or grants of lands for the building of said road, as said grant is a fraud upon the United States, the State of Oregon, and the people thereof. And your memorialists would further ask that the cancellation of said patents or grants be without any reservations or exceptions whatever

And your memorialists will ever pray.

REPORT.

SENATE CHAMBER,
SALEM, February 16, 1887. }

Mr. President—We your Special Committee on the part of the Senate, appointed under H. J. R. No. 3, to investigate the disposition of funds appropriated by the Session of the Legislature of 1885, for the purpose of building a fish way at the falls of Oregon City, Oregon, after careful examination we find that the amount of the appropriation was \$10,750; that Mr. Wallace Baldwin was appointed Commissioner, with the authority to construct said fish way or fish ladder; that we find in our examination that Mr. Baldwin expended to the San Francisco Bridge Co., \$9,700; Mr. Webber for making survey, plans, and superintending the work during construction, \$450; attorneys' fees, \$85; to Wallace Baldwin, salary, \$200; to Wallace Baldwin, for traveling expenses, \$275—leaving a balance still on hand of \$40.

We find that the ladder, from the best information we can get, to be very greatly damaged, yet in its present state, owing to the rocks being blasted out at the brink of the falls, salmon do ascend but not in such numbers as would ascend if the ladder were in good condition. We are unable to approximate the amount of damage sustained, but in our limited information we think it would require an appropriation fully equal to the amount recommended, in the Commissioners' Report to the Legislature, to repair the ladder and to protect it from damages from drift and high water, viz., \$2,500, and we hereby recommend that the said appropriation be made.

L. T. BARIN,
T. E. CAUTHORN.

A. C. JENNINGS,

Mr. Cartwright, Chairman of Special Committee, submitted the following

REPORT.

SENATE CHAMBER,
SALEM, February 12, 1887. }

Mr. President—Your Joint Committee to examine the books and papers of the Oregon State Board of Agriculture, beg leave to report that we have had the same under consideration, and have carefully examined the expenditure of the money appropriated by the State for the purposes and uses of said Board. We find that in the past two years there has been paid, as premiums upon the exhibitions of the stock interests of the State, the agricultural interests, the me-

chanical interests and of the other material interests of Oregon, the sum of \$8,884 05, and that there is in the treasury a balance of the sum appropriated—the sum of \$1,115 95.

We examined carefully the methods adopted by the Board of awarding the premiums paid by said Board upon the above named exhibitions, and find that the people of the entire State were fully represented in making said awards.

We also find that the money appropriated and paid out by said Board as premiums has been distributed throughout the entire State, and that the stock-growing, the agricultural, the mechanical and art interests of the State have been greatly benefited by the small expenditure which Oregon has made to this Board.

We find that none of the money appropriated has been used in any manner whatever as premiums for trials of speed nor in any way has been used to aid the speed department of the State Fair. We also have ascertained that the speed department is separate and distinct from the other departments of the State Fair and that said speed department has yielded to the Board over and above all the expenses of said department a net sum of \$1900, which has been added to and made a part of the net proceeds of the last two State Fairs held under the management of the Board.

We also find that this Board has conducted the last two State Fairs so profitably and successfully that there has been a net profit over and above all expenses the sum of \$11,357 33, and that out of this sum the Board has paid upon the debts of the Oregon State Agricultural Society, which conducted the State Fairs of this State from 1861 to 1884, the sum of \$10,160.

This Board has conducted the two State Fairs last held judiciously, economically and profitably, and we are fully satisfied that no expenditure of the State has been more beneficial to the material interests of the State than the appropriation of the sum which was made by the Legislature in 1885 for the benefit of this Board.

We therefore heartily recommend a continuation of said appropriation for at least two years longer.

Respectfully submitted,

C. M. CARTWRIGHT,

Chairman on the part of the Senate.

On motion of Mr. Gray, the foregoing report was adopted.

Mr. Shupe, Chairman of the Special Joint Committee under H. C. R. No. 6, submitted the following

SALEM, February 16, 1887. }

Mr. President—Your Committee appointed by Concurrent Resolu-

tion of the Senate and House of Representatives to examine the books and accounts of the State Treasurer, beg leave to submit the following report:

As authorized by your Resolution, we employed as expert accountants Walter Sinclair and James Walton to examine the books and accounts of said office under our direction and supervision, and with such personal assistance as our other legislative duties enabled us to give the work, and have to report:

First—Every receipt of the Treasurer issued during the past two fiscal years has been carefully examined, compared with the duplicate receipt filed with the Secretary of State, and checked on the Treasurer's report.

Second—The disbursements, as reported by the Treasurer, have been verified by detailed examination of the Secretary's warrants, filed in the Treasurer's office, on which the payments have been made and in every case found to agree, and the totals, both of receipts and disbursements, in the several funds found correct.

Third—The bonds reported as having been redeemed, together with the interest coupons paid, have all been separately examined and found correct in number and amount.

Fourth—The notes given for loans from the various trust funds and the mortgages securing the same have been carefully examined, and are now turned over to the present State Treasurer, whose receipt corresponds to the statement of the ex-Treasurer's report.

Fifth—The securities deposited by the foreign insurance and express companies, amounting to two millions and a quarter, have been produced to your Committee, examined by them and are all in the possession of the present State Treasurer Webb. The books and accounts of the office are neatly and systematically kept, and in all respects agree with the printed report with the exception of some typographical errors in the latter.

SENATE CHAMBER,
SALEM, February 15, 1887. }

Mr. President—Your Committee appointed under House Concurrent Resolution No. 8, to examine the books and accounts of the Secretary of State and those of the Board of Commissioners for the sale of School and University Lands, have completed our labors and beg leave to report as follows:

We have, with the assistance of competent accountants, pursued our investigation in as thorough and comprehensive a manner as the time at our disposal would permit. We find that the records in the office of the Secretary of State have been kept in a neat and systematic manner, with a view of their being accurate and of easy reference. Records and indexes have been regularly kept and papers have been so filed and recorded as to make each class of easy access. We have carefully compared the stubs of the warrant books with the entries as made in the abstract of warrants, from which the Secretary's Biennial Report is made, and have also compared the

vouchers with the corresponding entries in the aforesaid abstract, and find that they have been correctly entered under their appropriate headings and the amounts carried forward from page to page showing the condition of the various funds at any date required. We have also compared the duplicate receipts of the State Treasurer as filed in the Secretary's office with the abstract of the same and find them correctly entered and the footings carried forward to the ledger, the face of which shows the exact condition of the various funds. The expenditures have in all cases been restricted to the rates and the amounts fixed by law, and in all matters in which the Secretary of State has had the exercise of discretionary powers, careful supervision and economy has been observed. We have been shown the various details of this department and note with interest the care taken by the Secretary of State in the care and protection of the State records. The most important of these which have accumulated during Mr. Earhart's eight years' administration have been carefully segregated and re-arranged in their regular order, from September 9, 1878, to December 31, 1886, inclusive, and properly labeled, and have been placed in the vault for further protection and future reference. We have been shown the deeds to the lands belonging to the State and upon which the various public buildings are erected, as well as the insurance policies covering many of the buildings owned by the State. Official oaths and bonds, vouchers, insane commitments, articles of incorporation, election returns and trade marks have all been systematically indexed, filed and recorded. The manuscript laws of every Legislative Assembly convened since the organization of the State are substantially bound and carefully preserved. The original Constitution of the State of Oregon, as signed by the members of the Constitutional Convention of 1857, as well as the original copy of the proceedings of that honorable body, are filed in the archives, in which may also be found the printed Laws and Journals of the various Sessions of the Legislative Assemblies. Records are also kept of Notarial and other Executive appointments, both civil and military; of the emolument returns; of the Clerks, Sheriffs and District Attorneys; of the patients committed to the Insane Asylum, as well as many other matters of public importance in which large interests are at stake. The records of the Provisional and Territorial Government are also carefully preserved. The books and accounts are neatly and accurately kept, and in view of the limited allowance heretofore made for clerical aid in that department, they are comprehensive and exhaustive in detail, reflecting great credit upon the Secretary of State, Hon. R. P. Earhart, and his worthy assistant, Major F. E. Hodgkin, under whose direct and personal supervision the work has been systematized and performed.

We have also carefully examined the books and accounts of the Board of Land Commissioners, and find that they have been well and correctly kept, all amounts received properly charged and turned over to the State Treasurer. The accounts for lands sold have been carefully compared with the entries in the cash books and with the endorsement on the notes given for deferred payments, and we find the same complete and accurate, and we find the system of accounts and the general manner of conducting the business of the office to be plain, comprehensive and complete, and reflects great credit upon the Clerk of the Board, Mr. E. P. McCornack. The records of the Board are neatly kept, the papers all systematically arranged and careful business management apparent throughout the entire office.

Respectfully submitted,

G. A. STEEL, Chairman,	} Committee.

To the Honorable the Senators and Representatives of the United States in Congress assembled:

Your memorialists, the members of the Legislative Assembly of the State of Oregon, would most respectfully represent to your Honorable body—

That the United States has reserved for the location of a lighthouse a high rocky promontory known as Cape Perpetua in Benton County, Oregon.

That the said Cape Perpetua presents the only formidable barrier to an open wagon road from Cape Foulweather in Benton County to Coos Bay in Coos County, Oregon.

That the construction of a wagon way over or around the said Cape would be a great benefit and convenience to the people of the western portion of the Counties of Benton, Lane, Douglas and Coos, and that it would greatly facilitate the settling up of that portion of the State.

That the opening of said road should be followed by the establishing of a through mail route, which is very much needed by the inhabitants of said Counties.

That, as the General Government holds possession of said Cape, the County Court declines to give the citizens the relief so much desired.

Therefore, your memorialists would most earnestly pray your Honorable Body to appropriate for the purpose above set forth the sum of twenty-five hundred dollars.

And your memorialists will ever pray.

Mr. Cartwright, Chairman of the Committee on Public Lands, submitted the following

REPORT.

SENATE CHAMBER, }
SALEM, February 12, 1887. }

Mr. President—Your Committee on Public Lands, to whom was referred the investigation of the mutilation of Senate Joint Memorial No. 6, of the Special Session of 1885, by Senate Resolution No. 21, beg leave to report that they have had the same under consideration and would respectfully report to the Senate that they have examined the original Journal of the Senate of the Special Session of 1885, and there find the original Memorial as passed by the Legislative Assembly of the Special Session of 1885, and we find that the enrolled copy has all of the original Memorial enrolled except the following words omitted, to-wit: "Albany by the way of Canyon City to the eastern boundary of the State, and by an act of Congress approved February 27, 1867, other certain lands were granted to the State of Oregon to aid in the construction of a military wagon from;" and that by said omission or mutilation said wagon road was exempted from the effects of said Memorial, and the will of the Legislature was thereby defeated. We find that said omission or mutilation occurred in the Senate after the passage of said Memorial by both Houses, but by whom your Committee have been unable to ascertain. We have also examined the matter thoroughly as to whether any State officer had anything to do with it and we thoroughly exonerate any and all said officers, as the mutilation occurred before it came into the custody of said officers; and we find

the papers in the office of the Secretary of State in perfect order without any erasures whatever, and are now just as they were when they were delivered to said Secretary of State; and we exonerate him from any blame or suspicion in the matter whatever. We hereto append the testimony taken by L. T. Richardson by order of the Committee, which is all the evidence of persons which we have been able to find who have any knowledge on the subject.

C. M. CARTWRIGHT,
Chairman of Committee on Public Lands.

STATE OF OREGON, }
County of Marion. } ss.

I, Jacob Voorhees, being first duly sworn, say I was one of the members and Chairman of the Enrolling Committee of the Senate at the Special Session of 1885, and I have compared Senate Joint Memorial No. 6 of said Session as enrolled with the original Memorial as introduced in the Senate, and to the best of my knowledge and belief the enrolled bill was not enrolled from the original Memorial which now forms a part of the manuscript Journal of the Senate of said Session, for the reason in every instance when Senator Williams and I compared I read the original and he read the enrolled bill, and we could not have made the mistake that has occurred. This or some other paper I requested the Chief Clerk of the Senate to deliver to me to enroll and he said he could not let me have it but would give me a copy thereof, as he was making the original a part of his Journal. Our Clerks on enrollment were instructed to copy absolutely in every particular except the spelling from the original. I compared said Memorial with Senator Williams, who was also a member of said Committee. Upon comparing the original Memorial as introduced in the Senate with the enrolled Memorial, I find said enrolled Memorial to be an exact copy of the said original except the following left out of the first "whereas," to-wit: "Albany by the way of Canyon City to the eastern boundary of the State; and by an act of Congress approved February 27, 1867, other certain lands were granted to the State of Oregon to aid in the construction of a military wagon road from." Whatever paper was handed to me by the Clerk of the Senate for enrollment as said Memorial was correctly enrolled by the Enrolling Committee and was then returned by me and reported correctly enrolled to the Senate. The foregoing statement contains all the knowledge or information I have in relation to the enrollment of said Senate Joint Memorial No. 6 of the Special Session of 1885.

I, C. O. T. Williams, being first duly sworn, say: I was one of the members of the Enrolling Committee of the Senate at the Special Session of the Legislative Assembly of 1885 of the State of Oregon, and that I and Senator Voorhees compared the paper purporting to be Senate Joint Memorial No. 6 of said Session and do not believe that the omission could have been made in the enrolled Memorial provided we had have had the original Memorial as appears in the manuscript Senate Journal of said Session. I made strict comparison of the said papers with Senator Voorhees and believe that the enrolled Memorial is an exact copy of the paper handed us for enrollment. I never paid any attention to see whether the signatures of the Clerks of the two Houses were genuine on bills or not.

I, Mary Louise Holmes and Alice M. Aiken, being first duly sworn, say: That we were the Clerks that enrolled Senate Joint Memorial No. 6 of the Special Session of 1885, and that we have now compared the original Memorial as now forms a part of the manuscript Senate Journal of said Session, and to the best of our knowledge and belief we could not have made the omission that appears in the enrolled bill had we have had the original Memorial to have made said enrolled Memorial from. We believe the enrolled Memorial to be a true copy of the paper it was enrolled from.

I, J. W. Strange, being first duly sworn, upon oath say: I was

Chief Clerk of the Senate of the Special Session of the Legislative Assembly of the State of Oregon, and in answer to the following questions say :

Question 1. Why was the Memorial which appears in your manuscript Journal left out of your printed Journal? And state whether you copied the manuscript Journal for the State Printer?

Answer. I made the copy for the State Printer under the direction of the Secretary of State and left the copy with him. I did not compare the copy with the original but left that to be done by those who were responsible for it. In making the copy I took the printed copy and pasted, as I supposed, all of that which appears in the Journal.

Question 2. Was it your custom to put the original Memorials in your Journal and make them a part of your manuscript Journal?

Answer. I sometimes put the original in and sometimes made copies for that purpose, depending upon the amount of work on hand.

Question 3. Do you remember to whom you delivered this Memorial for enrollment?

Answer. My recollection is it was to Miss Holmes.

Question 4. Why did you deliver it to her instead of the Chairman of the Enrolling Committee?

Answer. In the closing hours of the Legislature the Chairman had much to do and sometimes could not be found, and in order to expedite business I frequently delivered papers for enrollment to the Clerk of the Committee, which I presume is the reason for this.

Question 5. What time did the Senate adjourn, and what day was this enrolled on, and what day did you deliver it for enrollment?

Answer. I do not remember the date, but from the Journal of the Senate I see it was delivered to the Senate from the House on November 20, 1885, the day on which it was first introduced in the Senate. It having passed both Houses on that day I delivered the original as passed by both Houses immediately on its receipt by the Senate from the House, which, I think was but a short time before the close of the afternoon Session. Senate adjourned on Tuesday, November 24, 1885.

Question 6. Compare the original Memorial as passed by both Houses and state what is left out of the enrolled Memorial that appears in the original?

Answer. I find the following words have been omitted from the enrolled copy—that is, that portion of the enrolled copy in the hand-writing of Miss Holmes, the person to whom I delivered the original copy as found in the Journal of the Special Session for November 20, 1885, to-wit: "Albany by the way of Canyon City to the

eastern boundary of the State; and by an act of Congress approved February 27, 1867, other certain lands were granted to the State of Oregon to aid in the construction of a military wagon road from."

Question 7. Did you ever retain the original Memorial for your Journal and send to the Committee for enrollment a copy?

Answer. My answer is most emphatically and unhesitatingly no. I always gave the original as passed by both Houses to the Committee or its Clerk for enrollment.

Question 8. Did your Assistant Clerk ever do that?

Answer. Not with my consent, surely, and I do not believe he ever did.

Question 9. You may now make such further statements of anything you know in relation to Senate Joint Memorial No. 6 of the Special Session of 1885, and state if you ever had any conversation with Mr. James Hendershot or Mr. Tanner, an attorney of Portland, in relation to said Memorial at the time or afterwards or before, and if so, what was said conversation?

Answer. Previous to the close of the Special Session of the Legislature of 1885 I never had any conversation with Mr. Hendershott in relation to Senate Joint Memorial No. 6, but since that time I may have spoken to him in regard to that matter. I never spoke to Mr. Tanner in relation to the matter at all, and did not know until indirectly informed by this examination that either of the persons mentioned were in any manner interested or connected with the matter. This is all I know about the matter, but I am of the opinion that the error was made in the enrollment, for the reason that the enrolled copy was made from the original in the Journal of November 20, 1885.

Question 10. What was the conversation you had with Mr. Hendershott in relation to said Memorial if you recollect?

Answer. I do not remember of ever having any conversation with him regarding the matter, but as we frequently talked about Legislative matters, I may have had such a conversation, and if I did I do not now recall to mind either the time or place or what was said..

J. W. STRANGE.
